Chapter authors share teaching methodologies used in classes, discuss the competencies students need to learn and indicate research opportunities. Readers will be provided with real world examples of empowering, participatory, holistic, intersectoral, equitable and sustainable teaching learning strategies that aim to improve health and reduce health inequities. This handbook was edited by an editorial board formed by 12 members of the International Union for Health Promotion and Education (IUHPE) from seven countries: Brazil, Belgium, Canada, Israel, New Zealand, Taiwan, and UK, and includes 45 chapters organized in seven thematic sections, each one dedicated to a different aspect of the process of teaching and learning health promotion. The health promotion curriculum, Making health promotion relevant to practice, Pedagogies for health promotion, Special topics for health promotion, Health promotion assessment and quality assurance, Health promotion as a transformational practice, Students' reflections, The International Handbook of Teaching and Learning in Health Promotion Practices and Reflections from Around the World, aims to encourage a dialogue between teaching and learning practices carried out locally and the possibilities of replicating these experiences globally, recognizing cultural differences and similarities. This is especially evident in horror films and television. New methods of narration and storytelling have enhanced the genre, and streaming has made it more widely available than before. This collection of essays examines audiovisual horror's adaptation to the features and audience of the digital era. The essays focus on the various effects of new media in the audiovisual landscape with regard to institutions, audiences, and content.
