

# WHAT IS REDSTONE?

It's best to look at redstone as the primary conductor of circuits. In its purest form of redstone dust, it can be used to create many components, or forward a signal between them. If you want to automate any action in Minecraft, redstone is key.

## WHERE CAN I GET IT?

You can find redstone in its ore form in levels 1-15 as normal redstone ore, or the decorative redstone ore variant if you dig deep enough, but it's most common in the bottom 20 levels. You'll need to use at least an iron pickaxe to mine the ore, which will drop up to five blocks of redstone dust when it's destroyed.

## WHAT CAN I DO WITH A REDSTONE SIGNAL?

An active piece of redstone dust will emit a signal on to most adjacent blocks, including normal blocks, as well as those that have a redstone function (see pages 18-21). If a signal is emitted to a block that has a function, it will execute it, so long as the signal is present.

## WHAT CAN YOU DO WITH THE DUST?

Everything! If you place dust on top of a block, it appears as a dark line. But place a power source, such as a redstone torch, next to it and it will become much brighter, give off particles and carry a signal.

But that's not all, of course. If you place redstone dust on adjacent blocks, they'll join together and reconfigure to carry the signal in up to four directions. There are just a few of the configurations that you can make.

## SO THERE'S AN ENDLESS POWER SUPPLY?

Not quite. It can last forever, but its strength depends on the source and its distance, which you'll learn more about later. The redstone torch provides the maximum power of 15 to any adjacent redstone dust, but that decreases by 1 for every block it travels across. So a redstone torch can only power redstone dust up to 15 blocks away.

## IS THERE ANYTHING ELSE IT CAN DO?

That wasn't enough for you? Okay fine, redstone dust is also used in recipes to create redstone components such as repeaters, comparators and observers, even devices such as the block of redstone and daylight detectors, and other clever items such as clocks and comparators. Oh, and it can also be used in brewing to increase the duration of an effect.
