Armed Groups and International Legitimacy William Plowright, 2021-02-23 This book analyses the issue of child soldiers in order to understand how armed groups engage with international organizations to gain international legitimacy. The work examines why some armed groups follow the rules of international humanitarian law and others do not. It argues that armed groups in conflicts around the world engage with international organizations in order to gain international legitimacy and to show they are following the laws of war. By examining the issue of child soldiers in contemporary armed conflict the volume establishes a typology of which groups will engage with international actors and follow the laws of war and which will not. The main aim of the book is to understand the rationality of even the most violent of actors and to understand when and how armed groups can be encouraged to follow the laws of war. The work draws from extensive primary research conducted among armed groups in Syria and Myanmar including al Qaeda the Islamic State and the many small ethnic insurgent groups of Myanmar. This book will be of much interest to students of war and conflict studies security studies international

humanitarian law and International Relations *Indian Muslims and Citizenship* Julten Abdelhalim, 2015-10-05 Through the creation of post colonial citizenship India adopted a hybridisation of specific secular and western conception of citizenship. In this democratic framework Indian Muslims are observed on how they make use of the spaces and channels to accommodate their Islamic identity within a secular one. This book analyses how the socio political context shapes citizens perceptions of multiple variables such as their sense of political efficacy agency conception of citizenship rights and belief in democracy. Based on extensive surveys and interviews and through presenting and investigating the various meanings of jih d the author explores the usage of non Eurocentric conceptual approaches to the study of postcolonial and Muslim societies in particular the meaning it carries in the psyche of the Muslim community. She argues that through means of argumentative and spiritual jih d Indian Muslims fight their battle towards a realisation of citizenship ideals despite the unfavourable conditions of intra and inter community conflicts. Presenting new examinations of Islamic identity and citizenship in contemporary India this book will be a useful contribution to the study of South Asian Studies Religion Islam and Race and Ethnicity.

Commercially important sea cucumbers of the world Purcell, S.W., Lovatelli, A., Gonzalez Wanguemert, M., Solis Marin, F. A., Samyn, Y., Conand, C., 2023-06-09 Sea cucumbers are harvested and traded in more than 90 countries worldwide. They are exploited in industrial and small scale fisheries nearly from pole to pole especially in the tropics. In some fisheries more than 20 species are exploited by fishers. Fishers in general know how to distinguish the species they harvest often identifying them with local names. For fishery officers and even biologists recognizing sea cucumber species remains daunting however as they are confronted only with the final product b che de mer or trepang which is the processed cooked and dried product. This field guide offers a tool for fishery managers scientists trade officers and industry workers to recognize live and processed cooked and dried animals. This animal resource is mainly exported to Asian markets where it is

sold mainly but not exclusively as a luxury food item This book provides identification information on 84 species of sea cucumbers that are commonly or opportunistically as bycatch exploited around the world The list is certainly not all encompassing as some other sea cucumber species are also exploited More scientific data and accounts are needed for species from some regions such as the Eastern Atlantic Ocean The accounts are based on more than 270 reports and research articles and on comments and reviews by taxonomists and field workers Two page identification sheets provide selected information to enable similar species to be distinguished from each other both in the live and processed dried forms Where available the following information for each species has been included scientific and known common names used in different countries and regions scientific illustrations of the body and ossicles descriptions of ossicles present in different body parts a colour photograph of live and dried specimens basic information on size habitat biology fisheries human consumption market value and trade geographic distribution maps The volume is fully indexed and contains an introduction a glossary simplified dichotomous keys to live animals and dried products and a dedicated bibliography Readers are encouraged to base their identifications on a combination of morphological features samples of ossicles from different body parts and information on what habitat and locality the species was found
