Pyttersen's Nederlandse Almanak 2013 Alice Garritsen, 2012-10-29 In de Pyttersen's Nederlandse Almanak worden in vogelvlucht particuliere overheids en semi overheidsorganisaties en instellingen beschreven die ten minste een supralokaal belang dienen en primair een not for profit doel nastreven De beschreven organisaties en instellingen staan geordend op werkgebied en worden ontsloten door een uitgebreid register U kunt de Pyttersen's Nederlandse Almanak ook online raadplegen met als voordeel dat diverse categorieën geselecteerd kunnen worden Voor meer informatie zie [www.bsl.nl](http://www.bsl.nl)

**Natural Resource Management and the Circular Economy** Robert C. Brears, 2018-02-15 This book provides insight into how governments are using a variety of innovative fiscal and non fiscal instruments to develop circular economies with significant economic and environmental benefits It emphasises the urgent need for these circular economies and to move away from our current linear model that has led to environmental degradation volatility of resource prices and supply risks from uneven distribution of natural resources Natural Resource Management and the Circular Economy illustrates how governments have promoted the development of an economy that can provide substantial net material savings mitigate price volatility and supply risks and improve ecosystem health and long term resilience of the economy Through a series of case studies it details the various innovative policy instruments which can be utilised including regulations market based instruments incentives research and innovation support information exchanges and support for voluntary approaches The book also proposes a series of best practices for different countries both developed and developing who are implementing their circular economy

*Dictionary of Building and Civil Engineering*, 2013-12-20 In the last few decades civil engineering has undergone substantial technological change which has naturally been reflected in the terminology employed in the industry Efforts are now being made in many countries to bring about a systematization and unification of technical terminology in general and that of civil engineering in particular The publication of a multilingual dictionary of civil engineering terms has been necessitated by the expansion of international cooperation and information exchange in this field as well as by the lack of suitable updated bilingual dictionaries This Dictionary contains some 14 000 English terms together with their German French Dutch and Russian equivalents which are used in the main branches of civil engineering and relate to the basic principles of structural design and calculations the elasticity theory strength of materials soil mechanics and other allied technical disciplines to buildings and installations structures and their parts building materials and prefabrications civil engineering technology and practice building and road construction machines construction site equipment housing equipment and fittings including modern systems of air conditioning as well as to hydrotechnical and irrigation constructions The Dictionary also includes a limited number of basic technical expressions and terms relating to allied disciplines such as architecture and town planning as well as airfield railway and underground construction The Dictionary does not list trade names of building materials parts and machines or the names of chemical compounds Nor does
