## Nc Traffic Signs:

Traffic-Sign Recognition Systems Sergio Escalera, Xavier Baró, Oriol Pujol, Jordi Vitrià, Petia Radeva, 2011-09-22 This work presents a full generic approach to the detection and recognition of traffic signs. The approach is based on the latest computer vision methods for object detection and on powerful methods for multiclass classification. The challenge was to robustly detect a set of different sign classes in real time and to classify each detected sign into a large extensible set of classes. To address this challenge several state of the art methods were developed that can be used for different recognition problems. Following an introduction to the problems of traffic sign detection and categorization the text focuses on the problem of detection and presents recent developments in this field. The text then surveys a specific methodology for the problem of traffic sign categorization Error Correcting Output Codes and presents several algorithms performing experimental validation on a mobile mapping application. The work ends with a discussion on future research and continuing challenges.

Municipal Benchmarks David Ammons, 2014-12-18 Completely updated with new listings and statistics throughout this comprehensive resource goes beyond the current literature on local government performance measurement and provides benchmarks on more than 40 key topics against which performance can be assessed in all areas of operation. Ammons has assembled a remarkable volume of benchmark data for a comprehensive range of municipal government services. Municipal Benchmarks will be of considerable help for municipalities in laying the groundwork for an accountable government. Harry Hatry The Urban Institute I am delighted to see that ideas for advancing our industry are alive and thriving. Ammons's collection does an incredible service to every municipal manager in the country and perhaps the world. These benchmarks clearly set standardized ways of looking at measuring the performance of municipal service delivery. Ted Gaebler City Manager Rancho Cordoba CA co author of Reinventing Government
