Burts, Rosalind Charlesworth, 1997-07-10 This volume combines research and practice on integrated developmentally appropriate curriculum in a manner that will help theorists, researchers, parents, school administrators, and teachers understand how to match early childhood teaching practices to the integrated manner that young children naturally think and learn. The book features specialists in each of the traditional curriculum areas, e.g., math, science, literacy, who share their expertise on how to accomplish this in practical and meaningful ways based on NAEYC and other professional organization guidelines. What an integrated curriculum means for assessment, children with disabilities, guidance, parenting, social development, and multicultural perspectives in early childhood education is also covered. *Resources in Education*, 1996-10 Mathematics of Computation, 1985 Original articles on all aspects of numerical mathematics, book reviews, mathematical tables, and technical notes. Covers advances in numerical analysis, application of computer methods, high-speed calculating, and other aids to computation. *Early Childhood Update*, 1996 Educating Young Children from Preschool Through Primary Grades Laverne Warner, Judith Sower, 2005 Catering to the first-time teacher, the authors provide day-to-day challenges of what it means to teach young children in the classroom while fostering a mentoring environment for pre-service teachers entering the field. Chapter 4 addresses children with special needs and commonly used modifications for each of the disabilities. A unique chapter on teaching fourth graders, chapter 10, has been included that may be covered or skipped depending upon state requirements. Lesson planning is emphasized throughout, and sample lesson plans and mini-lessons have been included for every grade level and subject area. Mathematical Reviews, 1987 *Electrical & Electronics Abstracts*, 1995 Exceptional Child Education Abstracts, 1972 *Documentation Abstracts*, 1986 Artificial Intelligence Abstracts, 1991 *Vision Geometry*, 1993
