College and University Education in the United States , *America's Best Colleges* ,2008 *Breakpoint* Jon McGee,2015-11-15 How can colleges adapt to disruptive change while staying true to their educational values Second Place Winner of the Typographic Jacket from Washington Publishers The challenges facing colleges and universities today are profound and complex Fortunately Jon McGee is an ideal guide through this dynamic marketplace In Breakpoint he argues that higher education is in the midst of an extraordinary moment of demographic economic and cultural transition that has significant implications for how colleges understand their mission their market and their management Drawing from an extensive assessment of demographic and economic trends McGee presents a broad and integrative picture of these changes while stressing the importance of decisive campus leadership He describes the key forces that influence higher education and provides a framework from which trustees presidents administrators faculty and policy makers can address pressing issues in the aftermath of the Great Recession Although McGee avoids endorsing one size fits all solutions he suggests a number of concrete strategies for handling prospective students and developing pedagogical practices curricular content and delivery and management structures Practical and compelling Breakpoint will help higher education leaders make choices that advance their institutional values and serve their students and the common good for generations to come **Academic Brands** Mario Biagioli,Madhavi Sunder,2022-07-21 Explores the rise of the brand as a medium through which the modern university represents and remakes itself **Kiplinger's Personal Finance** ,2009-08 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics **America's best colleges** editors of U.S. News & World Report,2002 **U.S. News & World Report** ,2006 **The College Board Review** ,1991 *American Best Colleges* Mortimer Zuckerman,1997-09 U.S. News and World Report ,2007 **New York School Journal** ,1894 *America's Best Graduate Schools* ,2006 **Breaking Ranks** Colin Diver,2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America s colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he

asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality
