Accounting Information Systems Arline A. Savage, Danielle Brannock, Alicja Foksinska, 2024-03-28 Accounting Information Systems presents a modern professional perspective that develops the necessary skills students need to be the accountants of the future Through high quality assessment and a tool agnostic approach students learn course concepts more efficiently and understand how course concepts are applied in the workplace through real world application To help students to be the accountants of the future the authors incorporate their own industry experience and help showcase how AIS concepts are used through tools spotlighting real accounting professionals and job opportunities This international edition provides new and expanded coverage of topics including components of AIS database forms and reports and software tools for graphical documentation The edition also includes new cases from across the world in the In the Real World feature in select chapters showing how the concepts in the chapter apply to a real world company or business Every chapter now includes new Concept Review questions at the end of each section focusing on key points students need to remember *Decision Sprint: The New Way to Innovate into the Unknown and Move from Strategy to Action* Atif Rafiq, 2023-04-25 A Wall Street Journal Bestseller Atif has been at the center of Internet and digital disruption for over 20 years building on 15 years of experience in pure play tech companies such as Amazon where he led large scale fast growing digital businesses CNBC Fearlessly delve into the unknown with breakthrough methods to put your company on the path to innovation creativity and growth It's no secret that steering a business has become dramatically more complex and uncertain in our modern era Constant exploration of new territory by teams is the name of the game Yet most companies are stuck with yesterday's approach to problem solving Problem solving needs to be reinvented to meet today's challenges The future of business depends on it Having reached the highest levels of the Fortune 500 digital disrupter Atif Rafiq has written Decision Sprint to pull the curtain back on the hidden management systems within your organization that impact how people think collaborate and make decisions Talent is

vital to any company's advancement but it's the collaboration and problem solving systems that separate industry leaders from the rest. Systems designed to embrace unknowns are the quickest most enduring way to foster growth, continuous innovation and results. Learn how teams begin with upstream work, the phase of a promising idea or initiative where the unknowns predominate to problem solve anything, thus unlocking downstream actions from alignment to decision making to execution. With Rafiq's guidance you'll overtake your competitors by moving upstream, embracing workflows that convert unknowns to clear recommendations, alignment and action. In addition you'll receive direct advice from the CEOs/presidents of H R Block, Volvo, Peacock, Restaurant Brands, Orange Theory Fitness among others and learn from in depth case studies such as Amazon's disruption of publishing, the massive digital transformation of McDonald's, the secret of launch of Apple Pay, Volvo's push for sustainability and more. Don't just be ready for the next frontier of business, be continuously ready for the unknowns with Decision Sprint.

The Danger of Devaluing Immigrants Fariborz Ghadar, 2022-11-07 Despite deep divisions on the issue of immigration, this book shows that immigration promotes economic innovation, expands the job market and contributes to diversity and creativity in the United States. Immigration as a conduit for bringing new talent, ideas and inventions into the United States is essential to the success and vitality of our economy and society. This timely book, researched and written by the Immigration Book Project Team at Penn State University, approaches immigration from historical, economic, business and sociological perspectives in order to argue that treatment of immigrants must reflect and applaud their critical roles in supporting and leading the economic, social, cultural and political institutions of civil society. Approaching immigration as both a socioeconomic phenomenon and a matter of public policy, *The Danger of Devaluing Immigrants* offers demographics and statistics on workforce participation and job creation along with stories of individual immigrants' contributions to the economy and society. It supports the idea that when immigration is challenged in the political sphere, we must not lose sight of the valuable contributions that immigrants have made and will continue to make to our democracy.

Nothing But Net: 10 Timeless Stock-Picking Lessons from One of Wall Street's Top Tech Analysts Mark Mahaney, 2021-11-09 Find the winners, avoid the losers and build a solid Tech portfolio for the long run with proven methods from legendary analyst Mark Mahaney. The Tech industry is the stock market's hottest, most profitable sector, but it can be a roller coaster ride. Companies with great ideas can end up going nowhere, and some that dominate today will be sold at fire sale prices in five years. Sure, things can become sore things very rapidly. *Nothing But Net* provides the knowledge and insights you need to understand what's really hot, to know what's not, and to outperform other investors consistently and decisively. Famous for his smart, savvy and unique approach to Tech stock investing, Mark Mahaney provides his 10 proven rules for succeeding as a long term Tech stock investor, explaining everything he's learned during almost 25 years of analyzing internet stocks, including why revenue growth and customer metrics, not earnings, are what matter most to Tech investors. How to invest, not trade, in the great growth opportunities that lie ahead. How to determine when high valuations

are a warning sign and when they signal an opportunity I've watched the rise of some of the leading companies of today Facebook Amazon Netflix Google and the fall of some of the leading companies of yesterday Yahoo eBay and AOL Mahaney writes Figuring out which companies really are going to be dominant franchises is an extremely hard thing to do But those who accomplished this were arguably able to generate some of the best portfolio returns in the stock market over the past generation Nothing But Net provides powerful advice for the next two decades lessons you can start applying today and use for years to come
