*Creating Innovation Leaders* Banny Banerjee, Stefano Ceri, 2015-12-01 This book focuses on the process of creating and educating innovation leaders through specialized programs which are offered by leading academic schools. Accordingly the book is divided into two parts. While the first part provides the theoretical foundations of why and how innovation leaders should be created, the second part presents evidence that these foundations can already be found in the programs of ten top level universities. Part one consists of six chapters following a rigorous plan of content development addressing topics ranging from 1 innovation to 2 the settings where innovation occurs, 3 innovation leadership, 4 the need to change education, 5 a taxonomy of advanced educational experiences and 6 cases of positive vs negative innovation leadership in the context of complex problems. Here the authors show that a new kind of innovation leadership is urgently needed, how it can be created and how it is put into action. The second part is a collection of invited chapters that describe in detail ten leading academic programs, their objectives, curricular organization, enrollment procedures and impact on students. Selected programs include four North American institutions: Stanford's d school, Harvard's Multidisciplinary Engineering Faculty, Philadelphia University, OCAD's Master of Design on Strategic Foresight Innovation, five European institutions: Alta Scuola Politecnica of Milano and Torino, the EIT Master Program Paris d school, Brighton's Interdisciplinary Design Program, Aalto University and the Mission D program at Tongji University in China. The book is dedicated to all those who recognize the need to provide stimuli regarding innovation and innovation leadership primarily but not exclusively in academia. These include but are not limited to professors, deans and provosts of academic institutions, managers at private organizations and government policy makers, in short anyone who is engaged in promoting innovation within their own organization and who feels the need to expand the intellectual and practical toolbox they use in this demanding and exciting endeavor.

[Quantum Leadership: Creating Sustainable Value in Health Care](#) Nancy M. Albert, Sharon Pappas, Tim Porter-O'Grady, Kathy Malloch, 2020-10-02 Quantum Leadership Creating Sustainable Value in Health Care Sixth Edition focuses on the issue of leadership within the shifting landscape of health care. With clarity and depth of detail, the text features theories about contemporary leadership within today's increasingly complex and diverse healthcare delivery system. It works from a model of complexity leadership in which leadership is not limited to those with certain titles but an attribute that every healthcare worker can develop for success in fast moving, information overloaded organizations. The Sixth Edition focuses on supporting high levels of interdisciplinary teamwork as a key leadership strategy to further advance the skills necessary to lead complex cross departmental teams. The unique hallmark of this text is its focus on the postindustrial, complex and highly mobile modern healthcare system. The authors emphasize the importance of characteristics, elements and role of leaders in guiding individuals and teams.
