The British National Bibliography Arthur James Wells,2009 Women's Human Rights Niamh Reilly,2013-04-23

Women's Human Rights Seeking Gender Justice in a Globalising Age explores the emergence of transnational UN oriented feminist advocacy for women's human rights especially over the past three decades. It identifies the main feminist influences that have shaped the movement liberal, radical, third world and cosmopolitan and exposes how the Western legalist state centric and liberal biases of mainstream human rights discourse impede the realisation of human rights in women's lives everywhere. The book traces the evolution of the women's human rights movement through an examination of its key issues, debates and practical interventions in international law and policy arenas. This includes efforts to Develop global gender equality norms via the UN Women's Convention, Frame violence against women as a human rights issue, Address gender based crimes in conflict situations, include women in conflict resolution and post conflict reconstruction and challenge new forms of militarism. Highlight the gendered human rights dimensions of widening inequalities in a context of neo liberal globalisation. Develop human rights responses to anti-feminist fundamentalist movements with a focus on reproductive and sexual rights. Ultimately Women's Human Rights reaffirms a commitment to critically reinterpreted universal human rights principles and demonstrates the vital role that bottom up transnational movements play in making them a reality in women's lives.

The Politics of Reparations and Apologies Stephanie Wolfe,2013-11-21 The Politics of Reparations and Apologies examines the evolution and dynamics of reparation politics and justice. The volume introduces the key concepts, theories and terms associated with social movements and in particular the redress and reparation movement RRM. Drawing from RRM's that have their foundation in World War II, the German genocides, the United States internments and the Japanese comfort women system, the volume explores each case study's relative success or failure in achieving its goals and argues that there are overarching trends that can explain success and failure more generally in the RRM movement. Using the backdrop of international criminal law and normative concepts of reparations, the volume establishes and analyzes the roles of reparations and apologies in obtaining transitional justice. In each case study there is a detailed rundown of the political actions that were attempted to obtain redress and reparation for the victims of how successful the attempts were and of the crucial factors which influenced the relative success or failure. Crucially the volume offers a comparative framework of the actions that contribute to a successful outcome for transitional justice. With the increasing normative expectation of justice in post conflict situations this volume is a valuable resource for researchers in international affairs, human rights, political science and conflict studies.

Living Together: Elisabeth Weber,2013 For Jacques Derrida the notions and experiences of community living and together never ceased to harbour radical, in fact infinite interrogations. In this volume the paradoxes, impossibilities and singular chances that haunt the necessity of living together are evoked in Derrida's essay 'Avowing The Impossible' around which the collection is gathered.

[Memory Laws in Poland and Hungary Report by the research consortium 'The Challenges of Populist Memory Politics and Militant Memory Laws \(MEMOCRACY\)'](#) Aleksandra Gliszczynska-Grabias, Grażyna Baranowska, Anna Wójcik, Miroslaw Sadowski, Anastasiia Vorobiova, 2023-12-31. This Report consists of two main parts devoted to Poland's and Hungary's remembering of and dealing with the past including with the use of memory laws and other deployments of legal and extra legal means in historical policy including soft law. Magazines for Libraries William A. Katz, 2006 **Choice**, 2007 *Syracuse Journal of International Law and Commerce*, 1996 **Photography, Truth and Reconciliation** Melissa Miles, 2020-08-05. Photography Truth and Reconciliation charts the connections between

photography and a crucial issue in contemporary social history. The book examines the prevalence of photography in cultural responses to processes of truth and reconciliation and argues that photographs are a valuable means through which stories can be retold and historiography can be rethought. Five compelling case studies from Argentina, Canada, Australia, South Africa and Cambodia underscore the special role that this medium has played in facilitating processes of recovery and in reconstructing suppressed histories even when a documentary record of the events does not exist. The diverse practices addressed in this book including artistic protest, institutional, archival, legal and personal photography prompt a new consideration of photography's links to presence, place, time, spectatorship and justice. Collectively these practices attest to photography's key role in transitional justice and in shaping historical understanding internationally. Important reading for students taking photography, visual culture, history and media studies courses. *Photography, Truth and Reconciliation* explores key historical and theoretical themes including photography and testimony, international discourses on human rights and justice and problematic notions of public and collective memory. Rose Arny, 2002 Seven Absolute Rights

Ryan Alford, 2020-05-21 For 150 years Canada's constitutional order has been both flexible and durable, ensuring peace, order and good government while protecting the absolute rights at the core of the rule of law. In this era of transnational terrorism and proliferating emergency powers, it is essential to revisit how and why our constitutional order developed particular limits on the government's powers which remain in force despite war, rebellion and insurrection. *Seven Absolute Rights* surveys the historical foundations of Canada's rule of law and the ways they reinforce the Constitution. Ryan Alford provides a gripping narrative of constitutional history beginning with the medieval and early modern context of Magna Carta, the Petition of Right and the constitutional settlement of the Glorious Revolution. His reconstruction ends with a detailed examination of two pre-Confederation crises: the rebellions of 1837-38 and the riots of 1849, which as he demonstrates provide the missing constitutional context to the framing of the British North America Act. Through this accessible exploration of key events and legal precedents, Alford offers a distinct perspective on the substantive principles of the rule of law embedded in Canada's Constitution. In bringing constitutional history to life, *Seven Absolute Rights* reveals the history and meaning of these long-forgotten protections and shows why they remain fundamental to our freedom in the twenty-first century.
