## **Opera Quae Supersunt Vol Classic:**

Leibniz, Classical Theism, and the Problem of Evil Nathan A. Jacobs,2025-07-30 This volume offers a defense of Leibniz's theodicy and his infamous claim that our world is the best of all possible worlds. It considers Leibniz's rationale for optimism, examines its roots in ancient and medieval thought, and forwards a novel rereading of Leibniz's theory of freedom in light of this background, all of which highlights the very real challenges of evading optimism from within the framework of classical theism. Gottfried Leibniz is known for his theodicy or defense of God's Goodness, Wisdom, and Justice despite the realities of evil in our world. This book argues that Leibniz's optimism is inevitable for proponents of classical theism and even for many not-so-classical theists. The author's argument is threefold. First, he demonstrates that Leibniz's theodicy is deeply rooted in the classical theist tradition, pagan and Christian, and shows that the philosopher of Leipzig is merely following these commitments to their logical conclusion, a conclusion that long precedes Leibniz. Second, he offers a novel rereading of Leibniz in the light of his philosophical and theological antecedents, a reading that, if correct, dispels ubiquitous but problematic assumptions about Leibniz's case, specifically those about divine and human freedom. Third, he demonstrates the analytic tether that connects classical theism to Leibniz's conclusion, making his notorious optimism virtually inevitable for proponents of classical theism and even for not-so-classical theists. This book demonstrates the ways in which Leibniz is relevant to not only classical theists and students of Modern philosophy but also to contemporary philosophers of religion, more generally, and philosophical theologians who are concerned with the problem of evil. Leibniz Classical Theism and the Problem of Evil will appeal to scholars and graduate students interested in Leibniz philosophy of religion, history of philosophy, philosophical theology, free will, and the problem of evil.

Whisenand Krall, 2023-10-30 The letter to the Colossians contains a series of moral instructions in Colossians 3:12-17 and includes the admonition to sing among them. This study considers how music making, specifically singing, supports moral formation according to the letter to the Colossians. Studies in ethnomusicology, anthropology of the voice, and music psychology offer useful frameworks for conceptualizing how a social practice like music making forms participants into a community and shapes how they know themselves, their community, and the world. With the aid of these frameworks, we find

that the singing in Colossians 3 16 as a corporate vocal practice of music making enables the members of the church community to inhabit the story of reconciliation found in the Christ Hymn Col 1 15 20

**Freedom and Responsibility in Neoplatonist Thought** Ursula Coope,2020-04-16

The Neoplatonists have a perfectionist view of freedom an entity is free to the extent that it succeeds in making itself good Free entities are wholly in control of themselves they are self determining self constituting and self knowing Neoplatonist philosophers argue that such freedom is only possible for non bodily things The human soul is free insofar as it rises above bodily things and engages in intellection but when it turns its desires to bodily things it is drawn under the sway of fate and becomes enslaved Ursula Coope discusses this notion of freedom and its relation to questions about responsibility She explains the important role of notions of self reflexivity in Neoplatonist accounts of both freedom and responsibility In Part I Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions Part II explores the metaphysical underpinnings of the Neoplatonist notion of freedom concentrating especially on the views of Plotinus and Proclus In what sense if any is the ultimate first principle of everything the One free If everything else is under this ultimate first principle how can anything other than the One be free What is the connection between freedom and nonbodiliness Finally Coope considers in Part III questions about responsibility arising from this perfectionist view of freedom Why are human beings responsible for their behaviour in a way that other animals are not If we are enslaved when we act viciously how can we be to blame for our vicious actions and choices
