You've Been Played Adrian Hon, 2022-09-15 How games are being harnessed as instruments of exploitation and what we can do about it Warehouse workers pack boxes while a virtual dragon races across their screen If they beat their colleagues they get an award If not they can be fired Uber presents exhausted drivers with challenges to keep them driving China scores its citizens so they behave well and games with in app purchases use achievements to empty your wallet Points badges and leaderboards are creeping into every aspect of modern life *In You've Been Played* game designer Adrian Hon delivers a blistering takedown of how corporations schools and governments use games and gamification as tools for profit and coercion These are games that we often have no choice but to play where losing has heavy penalties *You've Been Played* is a scathing indictment of a tech driven world that wants to convince us that misery is fun and a call to arms for anyone who hopes to preserve their dignity and autonomy *Music, Sound and Identity in Video Games* Lidia López Gómez, 2025-08-01 This book offers a comprehensive overview of how video game sound and music represent cultures spaces and personal identifications Focusing on the concept of identity the volume brings together issues as diverse as belonging to an ethnic or cultural group identifying with certain sexualities or being able to deduce the historical or geographical context of a game This volume explores whether the musical and sound identities linked to video games are based on clichés and stereotyped

arrangements that span cultures and times. It includes case studies that analyse the mechanisms used by game producers, composers and sound designers to characterise and represent different identities to broad audiences of potential players as well as how the players perceive these sonic inputs. The book is organized into three main sections covering topics as the representation of historical periods, musical stereotypes of cultures from different geographic locations, representations of identity in fictional spaces and sonic depictions of gender.

The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us

Joe Federer, 2020-09-15. From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and, in the end, deliver more effective marketing that provides value.
