The paperless office doesn't have to be a myth. Turn paper into usable digital files, reducing clutter and increasing convenience. This book helps you assess your situation, develop a strategy and learn clever techniques for keeping more paper at bay with detailed discussion of the hardware, software and processes needed to get the job done. With Joe's guidance, you can develop a personal clean up strategy and choose your tools including a scanner and the software you need to perform OCR (optical character recognition). You'll also learn about devices and services for storing your digitized documents and document management apps that help you categorize, locate and view your digital document collections. Once you have your gear in hand, Joe shows you how to convert your paper documents to digitized files and gives you ideas for how to organize your office workflow, explaining how to develop day-to-day techniques that reduce the amount of time you spend pressing buttons, launching software and managing documents. You'll also master paper-reducing skills such as Scanning or photographing documents you find while out and about, business cards, receipts, menus, flyers and more so you keep only digitized versions. Joe discusses a variety of mobile scanning options for iOS, iPadOS and Android. Creating a digitized image of your signature so you can sign and share documents digitally rather than printing them for the sole purpose of signing them with a pen.
