*Concise Guide to Workplace Safety and Health* Gary Chambers, 2011-01-05 Every organization must comply with occupational health and safety regulations. Yet it is frequently unclear which actually apply in a given real life situation plus the field is loaded with technical terminology and complicated regulations. Many managers, trainers, even safety and health professionals therefore find it hard to know how to comply with exactly what is written to make this important discipline more understandable. *Concise Guide to Workplace Safety and Health: What You Need to Know When You Need It* systematically addresses for each of the 34 topics covered, core issues such as relevant regulations, required program elements and definitions of key terms. Organized for quick access to information, this handy reference book demystifies required documentation, training elements, medical requirements, recordkeeping and more. Conveniently, the author uses the same 20 part format for every topic. For example, if you want to know only about the documentation required, you can immediately turn to a topic's Section 9, Written Documentation Required. If training requirements are the issue, simply go to a chapter's Section 12, Training Requirements. Also provided for each topic are links to quality background and training information with sample forms and programs where available. The guide covers safety and health topics of interest to a wide cross section of industries and businesses. The author's relaxed yet focused approach and consistent format allow efficient access to a broad range of occupational health and safety information. The topics covered include not only those that are currently regulated but also emerging issues such as injury and illness prevention programs and the rapidly growing field of nanotechnology.

*MrQuickPick's 1-2-3 Business Plan to Unlocking Cars for Profit!* Jon Taylor, 2014-01-14 Did you ever wonder how much money the person who just unlocked your car actually makes for a living? He just charged you 60 for thirty seconds of actual work but surely he doesn't get to keep all of it or does he? He must have overhead, a storefront, expensive equipment and years of training. Maybe or just maybe he works from home out of his car with minimal tools and experience, advertising online and pocketing 200-300 per day. Perhaps he's knocking down six figures a year driving around town providing roadside services to other people who are trying to get to their real jobs working for someone else. Meet Jon Taylor, founder of Quick Pick Lockout Service and MrQuickPick Lock Road Service. A former hotel manager, Jon would often assist his guests with their automotive needs, calling on auto clubs to help with a tire change, dead battery or keys locked in a car. Sometimes it would take so long for help to arrive that he would simply grab some tools and do it himself. That's when he realized he could put his own business savvy and strong work ethic into starting and running his own lock road service. His company, Quick Pick Lockout Service, would gross over half a million dollars in its first three years and in the process win AAA's prestigious Member's Choice Award for three consecutive years. What started as a small business venture, unlocking cars with a friend, quickly turned into a multi-state enterprise. He has since taken this model for success and helped numerous others, including disabled
