Oxford Worlds Classics David Copperfield World Classics:

David Copperfield Charles Dickens, 1999 One of Dickens's best loved and most personal novels *David Copperfield* is the embodiment of Dickens's own boyhood experience recalling his employment as a child in a London warehouse. This edition which has the accurate Clarendon text includes Dickens's trial titles and working notes and eight original illustrations by Phiz.

Dickens, Family, Authorship Lynn Cain, 2017-05-15 Drawing on a wide range of Dickens's writings including all of his novels and a selection of his letters, journalism and shorter fiction *Dickens Family Authorship* provides a provocative account of the evolution of an author from whose psychological honesty and imaginative generosity emerged precocious fictional portents of Freudian and post Freudian theory. The decade 1843-1853 was pivotal in Dickens's career. A phase of feverish activity on both personal and professional fronts it included the irrevocable souring of his relations with his parents the peripatetic residence in continental Europe and a massive proliferation of writing and editing activities including the aborted autobiography. It was a period of astounding creativity which consolidated Dickens's authorial and financial stature. It was also one tainted by loss the deaths of his father sister and daughter and the alarming desertion of his early facility for composition. Lynn Cain's substantial study of the four novels produced during this turbulent decade *Martin Chuzzlewit* *Dombey and Son* *David Copperfield* and *Bleak House* traces the evolution of Dickens's creative imagination to discover in the modulating fictional representation of family relationships a paradigm for his authorial development. Closely argued readings demonstrate a reorientation from a patriarchal to a maternal dynamic which signals a radical shift in Dickens's creative technique. Interweaving critical analysis of the four novels with biography and the linguistic and psychoanalytic writings of modern theorists especially Kristeva and Lacan Lynn Cain explores the connection between Dickens's susceptibility to depression during this period and his increasingly self conscious exploitation of his own mental states in his fiction.

Drawing on his weekly *Guardian* column *Elements of Fiction* John Mullan examines novels mostly of the last ten years many of which have become firm favourites with reading groups. He reveals the rich resources of novelistic technique setting recent fiction alongside classics of the past. Nick Hornby's adoption of a female narrator is compared to Daniel Defoe's Ian McEwan's use of weather is set against Austen's and Hardy's. Carole Shields's chapter divisions are likened to Fanny Burney's. Each section shows how some basic element of fiction is used. Some topics like plot dialogue or location will appear familiar to most novel readers others metanarrative.
