Strategic Management John A. Parnell, 2013-01-15 Balancing theory with practice this fully updated fourth edition of John A Parnell's acclaimed text continues to provide detailed accessible coverage of the strategic management field. Taking a global perspective the text addresses concepts sequentially from external and internal analysis to strategy formulation strategy execution and strategic control. To help readers build their analytic skills as they master course concepts Parnell aligns each chapter's key concepts with 25 case analysis steps. Current examples and high interest cases largely drawn from The Wall Street Journal and Financial Times illustrate the key role of strategic management in the United States and around the world. Ideal for the capstone strategic management course Strategic Management is appropriate for a range of undergraduate and graduate courses

*Priced to Influence, Sell & Satisfy: Lessons from Behavioral Economics for Pricing Success* Utpal Dholakia, 2019-06-23 Pricing holds the key to business success. The greatest challenge in pricing is the human factor. To price effectively customer psychology usually trumps rational microeconomic thinking. How did Subway turn one accidentally discovered price promotion into a multi billion dollar success story? How much knowledge of prices do customers really have? Why do most people spend two months salary to buy an engagement ring? Does Pay What You Want pricing really work? How can you get your customers to trade up? Why do Supreme t shirts sell for 1 500 or more? Why do so many consumers hate Uber's surge pricing even though economists love it? In Priced to Influence Sell Satisfy you will find answers to these and many more questions. The book introduces the latest thinking about Psychological Pricing the science of designing effective pricing strategies using behavioral economics principles. You will learn how customers search for evaluate share and use prices in their buying decisions how they participate in setting prices and what managers can do to understand and influence these processes. Psychological pricing actions are levered. Many of them require relatively small investments and produce disproportionately large returns to the business
