*Badass Women and Hashtagged Zombies* Allison Christina Budaj, 2024-10-25. In its evolution from graphic novels to a sprawling multimedia universe, the impact of *The Walking Dead* cannot be understated. Beyond its narrative roots, a passionate community of viewers use social media to delve deeper into the anxieties and social issues portrayed within the narrative universe. This book uses fan discussions on social media platforms to analyze the series' appeal and its ability to provoke discussions about survival, societal norms, and gender roles, leading to a significant online presence and discussions about the characters' actions and societal issues portrayed. Viewers perceive and champion unconventional actions, especially as the leading female characters defy traditional gender roles. With the introduction of more diversity in the progression of characters within *The Walking Dead* and its spinoffs, the series continues to disrupt stereotypes. Focusing on analyzing audience engagement with AMC's *The Walking Dead* and its spinoffs through social media, this book highlights how fan-based interactions in creating a participatory culture around the series highlight societal issues presented, offering interpretations, theories, and personal connections. By integrating fan commentary into the analysis, fans act as active collaborators in understanding the impact of *The Walking Dead* universe as a meaningful popular culture artifact.

*Disability, Media, and Representations* Jacob Johanssen, Diana Garrisi, 2020-02-27. Bringing together scholars from around the world to research the intersection between media and disability, this edited collection aims to offer an interdisciplinary exploration and critique of print, broadcast, and online representations of physical and mental impairments. Drawing on a wide range of case studies addressing how people can be othered in contemporary media, the chapters focus on analyses of hateful discourses about disability on Reddit, news coverage of disability and education, media access of individuals with disabilities, the logic of memes and brain tumour on Twitter, celebrity and Down Syndrome on Instagram, disability in TV drama, the metaphor of disability for the nation as well as an autoethnography of treatment of breast cancer. Providing a much-needed global perspective, *Disability, Media, and Representations* examines the relationship between self-representation and representations in either reinforcing or debunking myths around disability and ways in which academic discourse can be differently articulated to study the relationship between media and disability. This book will be of interest to students and researchers of disability studies and media studies, as well as activists and readers engaged in debates on diversity, inclusivity, and the media.
