*The Metaverse* Matthew Ball, 2024-07-23 From the leading theorist of the Metaverse

comes the eagerly anticipated revised and updated account of the next internet what the Metaverse is what it will take to build it and what it means for all of us A Hudson Booksellers Amazon Guardian Financial Times Economist and ByteDance

Toutiao Best Book of the Year In this substantially revised and updated edition of his internationally best selling book

pioneering theorist and entrepreneur Matthew Ball goes beyond the hype cycle to present a definitive account of the future

of the internet The Metaverse according to Ball s industry shaping definition is a persistent and interconnected network of

3D virtual worlds that will eventually serve as the gateway to most online experiences and underpin much of the physical

world As Ball recounts the Metaverse is a thirty year old term and the core ideas and technologies behind it have been in

development for nearly a century Only recently however did this fantastical concept begin to leap from the pages of science

fiction and depths of national research labs to the forefront of consumer technology industrial engineering healthcare

education dating and more From the history of video games and virtual reality to proto metaverses such as Second Life

Fortnite and Roblox to Generative AI and the groundbreaking films and television series of the Walt Disney Company Ball

points out that the Metaverse is already emerging around us and doesn t require a headset Still there are many

breakthroughs required to fully realize the Metaverse and he describes each in approachable but expert detail Ball also lays

out how governmental policy the philosophy of Big Tech leaders artificial general intelligence economics and human rights

will shape the development of the Metaverse Famous for his ability to bring clarity to complex and misunderstood topics Ball

demonstrates that the race to build the Metaverse also known as the spatial or immersive internet is only accelerating The

Metaverse will endure as an indispensable guide for enthusiasts tech aficionados and anyone curious about the profound

transformations underway in our increasingly interconnected world

*The Triumph of the Slippers* Pascal

Bruckner, 2024-04-09 Since the beginning of the 21st century global warming terrorism the pandemic and now the war in

Ukraine have created a widespread feeling that the world is an increasingly dangerous place In response to this situation it is

understandable that many people are inclined to retreat to the safety of their home the last refuge and safeguard against the

savagery of the outside world But the home is not just a shelter it is a space that supplants and replaces the world a wired

cocoon that gradually renders any journey to the outside world superfluous From our couch we can enjoy remotely the

pleasures once offered by the cinema the theatre and the caf Everything from food to love to art can be delivered to your

door Armed with a smartphone and a Netflix account why would anyone risk life and limb to venture out to the cinema Compulsory confinement the nightmare of the pandemic years seems to have been replaced by voluntary self confinement Fleeing from the cities working remotely relinquishing travel and tourism we risk becoming reclusive creatures that cower at the slightest tremor In this witty and spirited book Pascal Bruckner takes aim at today s voluntary seclusionism and the self inflicted atrophy that comes with it tracing its philosophical contours and historical roots It is no longer the tyranny of lockdowns that threatens us but rather the tyranny of the sofa will the slipper and the dressing gown be the new symbols of tomorrow s world Managerial Economics William F.
