Science Education in India Rekha Koul, Geeta Verma, Vanashri Nargund-Joshi, 2019-09-24 This book brings researchers from across the world to share their expertise, experience, research, and reflections on science education in India to make the trends and innovations visible. The thematic parts of the book discuss science education overviews across K-12 levels, inclusivity, and access for underrepresented and marginalized sections. Use of innovations including technology in the teaching and implications for research, practice, innovation, and creativity. The book should be of special interest to researchers, school administrators, curriculum designers, and policymakers. A timely compilation for current and future generations of academic researchers, teachers, and policymakers who are interested in examining the issues facing one of the largest education systems in the world. The book offers unique insights into contemporary topics such as girls in STEM subjects, curriculum reform, and developing a generation of future creative thinkers. Professor Vaille Dawson, The University of Western Australia, Australia. It provides a panorama of challenges in a country of more than 1.3 billion people, 50% being below the age of 25 years. The book arrives at a time in which there are discouraging trends including a decrease in funding for education. The book chapters are centred on issues that warrant debate to foster awareness of the roles of science education in India and priorities and possibilities for expanding horizons on the road ahead. Professor Kenneth Tobin, The City University of New York, New York, USA.

Beginning Google Maps Applications with Rails and Ajax Andre Lewis, Cameron Turner, Jeffrey Sambells, Michael Purvis, 2007-05-02 The Google Maps API remains one of the showcase examples of the Web 2.0 development paradigm. *Beginning Google Maps Applications with Rails and Ajax* From Novice to Professional is the first book to comprehensively introduce the service from a developer perspective showing you how you can integrate mapping features into your Rails driven web applications. Proceeding far beyond simplistic map display you'll learn how to draw from a variety of data sources such as the U.S. Census Bureau's TIGER Line data and Google's own geocoding feature to build comprehensive geocoding services for mapping many locations around the world. The book also steers you through various examples that show how to encourage user interaction such as through pinpointing map locations, adding comments and building community driven maps. You'll want to pick up a copy of this book because This is the first book to comprehensively introduce the Google Maps application development using the Rails development framework. You'll be introduced to the very latest changes to the Google Maps API embodied in the version 2 release. It is written by four developers actively involved in the creation of location based mapping services. For additional info please visit the author's reference site for this book

Elementary Math Behind Google Maps Nara Reddy, 2022-08-27 The book title says it. A book intended to help children relate their basic arithmetic skills to the life we live and understand them in the broader context.
