Srinidhi Ranganathan, known as Digital Marketing Legend, has been teaching AI-powered digital marketing since 2006 before most people even knew what AI meant in business. He's watched the landscape transform completely. He's built systems that generate results in days that competitors take months to achieve. Now he's sharing everything. In "Hyper-Speed Artificial Intelligence Digital Marketing: AIDM Technology Certification Coursebook", Srinidhi reveals the exact frameworks, tools, and strategies he uses to compress 12 months of marketing execution into 30 days. Create 20 pieces of content in the time it takes others to create 1. Automate sales processes that used to require entire teams. Scale businesses 5X to 10X in the first year. Build AI-powered marketing machines that work 24/7 without his involvement. This isn't theory. This isn't inspiration. This is the practical blueprint Srinidhi uses with startups and corporations. The same blueprint that has generated millions in revenue. The same frameworks his premium consulting clients pay 1 lakh rupees per month to access. Now it's available in this coursebook. You'll discover the three pillars of Hyper-Speed AIDM that change how you think about marketing forever. The seven-layer AI marketing stack that creates exponential competitive advantage. How to create 100 articles per week without writer's block. The email automation sequences that convert 8% to 12% of subscribers into customers. How to automate your sales funnel so it generates leads while you sleep. The exact social media strategy that built a 100K audience organically. Advanced AI tools that most marketers don't even know exist. How to scale your business without hiring a large team. Every chapter ends with a practical secret that multiplies your results. Every section includes real numbers and real outcomes. Every framework is battle-tested in the field. If you're tired of digital marketing moving at a snail's pace if you're frustrated watching competitors with bigger teams get better results if you're ready to operate at a different order of magnitude this book is for you.
