*How to Improve the NBA* (Jeremy Arkes, 2022-10-02)

Like most die-hard NBA fans, the author gets frustrated by bad ref calls determining the outcome of a game or play-off series, fouls stopping fast breaks, strategic tanking for play-off positioning, imbalanced talent distribution, and watching a horrendous dunk contest that has the potential to be so much more. Now that his analytical creative capabilities surpass his jumping shooting skills more from a decline of the latter, he decided to do something about it. Drawing on his experiences from playing and conducting economic statistical research on basketball, Arkes offers some mostly sensible and easy to implement ideas to improve the NBA. These include among other ideas: Rules to reduce the influence of bad ref calls; A redesigned fun play-off format to reduce any incentive to tank for play-off positioning; A revamped dunk competition and new exciting contests for All Star Weekend; A sensible approach to the proposed in-season tournament; A wacky revolutionary yet plausible idea of a redesigned draft that gives players more power to determine their career trajectory. These ideas support the guiding objectives of adding excitement, promoting fair treatment of players, having fair play determine games and play-off series, and promoting competitive balance.
