**Profit Motive** Charles Sauer,2018-03-13 Most businesses are driven to maximize profit but what does this drive really mean in action In Profit Motive What Drives the Things We Do economist Charles Sauer makes the case that identifying your own and others Profit Motives provides the foundation for running a successful business being an effective leader a good consumer and getting what you really want out of life In this highly praised new treatise on economic behavior Sauer examines how businesses make decisions in pricing and employment and how the search for long term profit can mean adopting practices that may seem contrary to fundamental capitalist principles But the Profit Motive analysis goes well beyond the realm of finance and corporate decision making to explain how gaining a profit or a benefit is the motivating force behind an endless array of choices made by everyone from large organizations to individuals and their families and everything in between

**Inevitable** Mike Colias,2025-02-04 A sweeping portrait of the EV transformation and what it means for all of us The question is no longer if electric vehicles will happen or even when they ll happen but how Veteran automotive reporter Mike Colias takes you inside the transformation in this thoroughly reported profile of the hard pivot in the car business a 2 trillion industry undergoing the biggest change in its 120 year history a change that is already sending ripples across the entire global economy Colias documents the inevitable shift from pistons to electrons from every angle taking you inside the boardrooms where executives battle over their EV strategies to take on Tesla and more recently emerging Chinese powerhouses such as BYD He brings you to family run car dealerships deciding if they ll sell EVs or sell their businesses He follows entrepreneurs along lonely stretches of road that will soon need charging stations He talks to power train engineers whose skills were once the beating heart of the automotive industry but who now find themselves being replaced by coders This is an epic exploration that stretches from Detroit to Japan to Germany to China and from factories in Normal Illinois and Haywood County Tennessee to a burgeoning mining operation along the shores of California s briny lithium rich Salton Sea Inevitable is a deeply enjoyable and smart book that uses masterful storytelling to capture the expanse and dynamism of the transition to electric vehicles in profound detail bringing to life its seismic effects on everything and everyone

**Megacity Mobility** Zongzhi Li,Adrian T. Moore,Samuel R. Staley,2021-12-14 World population growth and economic prosperity have given rise to ever increasing demands on cities transportation planning and goods movement This growth coupled with a slower pace of transportation capacity expansion and deteriorated facility restoration has led to rapid changes in the transportation planning and policy environment These stresses are particularly acute for megacities where degradation of mobility and facility performance have reached alarming rates Addressing these transportation challenges requires innovative solutions Megacity Mobility grapples with these challenges by addressing transportation policy planning and facilities in a multimodal context It discusses innovative short and long term solutions for meeting current and future mobility needs for the world s most dynamic cities by addressing the influence of urban land use

Economic Commission for Latin America and the Caribbean,2018-01-15 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean The 2017 edition shows that the region is at a difficult juncture FDI inflows declined by 7 9% in 2016 to US 167 043 billion representing a cumulative fall of 17 0% since the peak in 2011 The fall in commodity prices continues to affect investments in natural resources sluggish economic growth in several countries has slowed the flow of market seeking capital and the global backdrop of technological sophistication and expansion of the digital economy has concentrated transnational investments in developed economies

Foreign Direct Investment in Latin America and the Caribbean 2019 United Nations Publications,2019-11-25 This ECLAC annual report sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In the region FDI inflows were up by 13 2% year on year for the first time in five years at US 184 287 billion This performance is explained by higher flows into just a few countries however mainly Brazil and Mexico Moreover it does not reflect equity investment but higher inflows in the form of intercompany loans and to a lesser extent reinvestment of earnings Manufactures and services were the sectors receiving most equity although there was a slight rise in investment in natural resource sectors compared with 2018

**An Electric Vehicle Conversion Start-Up. Development of a Business Model Approach** Fabian Hoeft,2019-10-24 Master s Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 1 3 Niederrhein University of Applied Sciences Krefeld School of Business and Economics language English abstract Today s world of mobility is characterised by a high degree of dynamism and change is becoming apparent Currently around 45 million passenger cars with conventional combustion engines powered by diesel or petrol are registered in Germany The share of electric vehicles is still well below one per cent Nevertheless the voices for sustainable and environmentally friendly transport are becoming louder One political measure in this respect is the implementation of driving bans in major German cities for some conventional combustion cars Car electrification is a solution for converting cars with conventional combustion engines to electric drives In the context of this thesis car electrification is

regarded as a transition solution towards a nationwide electrified transport network of new electric cars A comprehensive concept of a business model approach from a start up perspective has been developed based on the analysis of the environment industry and customer needs Analysing the structure of the electrical conversion industry revealed that the subject of car electrification is hardly widespread and that current suppliers have only converted a smaller number of cars Besides the small scale of implementation the operational execution by existing suppliers can be considered weak in terms of competitiveness and sustainability The analysis of the needs of potential customers of car electrification using qualitative and quantitative methods has led to incredibly valuable insights for the development of the business model approach A high openness to purchase was expressed considering some of the factors mentioned such as a test drive with an electrified car before purchase and a durability guarantee of the conversion The high relevance of initial acquisition costs compared to operating expenses in the purchase decision for passenger cars is another precious insight The business model approach developed based on the findings obtained differs fundamentally from the strategies of today s providers By incorporating the existing infrastructure of workshops and service points proximity to the end customer and scalability of the business operation can be achieved Partnering with universities and industry are two critical elements in the development of a sustainable secure and user friendly technical solution [Discover America Online](#) Kathy Ivens,Mark Kellner,Thomas E.
