## Lyft Latest Free Shipping:

**The Contribution of the Postal and Delivery Sector** Pier Luigi Parcu, Timothy Brennan, Victor Glass, 2018-03-08 This book addresses major issues facing postal and delivery services throughout the world. Worldwide there is currently a considerable amount of interest in postal and delivery economics. The industry is in a state of near crisis and drastic change is needed. The European Commission and member States are still wrestling with the problem of how to implement entry liberalization into postal markets, how to address digital competition and how to maintain the universal service obligation. USO (The Postal Accountability and Enhancement Act of 2006) in the U.S. has perhaps created and exacerbated the problems faced by USPS. Post Offices (POs) have been slow to address the threat of electronic competition. On the other hand, e-commerce presents opportunities for POs to expand their presence in parcel delivery and perhaps help finance or redefine the USO. A major aim of this book is to address strategies POs can use to reinvent themselves for the digital age. This book compiles original essays by prominent researchers in the field which will be selected and edited from papers presented at the 25th Conference on Postal and Delivery Economics held in Barcelona, Spain, May 24-27, 2017. That conference and this volume commemorate the memory of Michael Crew who organized twenty four prior conferences and co-edited previous conference volumes. This book is a useful tool not only for graduate students and professors but also for postal administrations, consulting firms and Federal Government departments.

**The New (Ab)Normal** Yossi Sheffi, 2020-10-01 Much has been written about Covid 19 victims, how scientists raced to understand and treat the disease and how governments did or did not protect their citizens. Less has been written about the pandemic's impact on the global economy and how companies coped as the competitive environment was upended. In his new book, *The New Ab Normal*, MIT Professor Yossi Sheffi maps how the Covid 19 pandemic impacted business supply chains and society. He exposes the critical role supply chains play in helping people, governments and companies to manage the crisis. The book draws on executive interviews, pandemic media coverage and historical analyses. Sheffi also builds on themes from his books, *The Resilient Enterprise* (2005) and *The Power of Resilience* (2015) to enrich the narrative. The author paints a compelling picture of how the Covid 19 virus is changing many facets of human life and what our post-pandemic world might look like. This must-read book helps companies to redefine their business models and adjust to a fast-evolving economic landscape. The stage is set. In Part 1 of the book, *What Happened*, the author looks at how companies fought to mend the global economic fabric even as the virus ripped more holes in it. Part 2, *Living with Uncertainty*, views the crisis through a supply chain risk management lens derived from Yossi Sheffi's previous books. This perspective shows how companies create corporate immune systems to quickly recognize and manage large-scale disruptions. The ongoing pandemic is creating a new normal in life, work and education, covered in Part 3, *Adjustment*. Required consumer fears about the contagion, as well as government mandates, require businesses in industries such as retail, hospitality, entertainment, sports and education to create safe zones for workers and customers. Many elements of the book

especially in Part 4 Supply Chains for the Future show how the virus accelerated preexisting trends in technology adoption China was the epicenter of the pandemic it also was the first nation to be disrupted and recover Part 5 of the book Of Politics and Pandemics explains why reports that companies are abandoning China in favor of other offshore manufacturing centers do not reflect reality Fundamentally The New Ab Normal is about businesses trying to create a better future in a time of extreme uncertainty a point emphasized in Part 6 The Next Opportunities The outlook is not necessarily gloomy The advance of technology is accelerating a trend that can level the playing field between small and large companies Nimble small businesses are using a growing array of off the shelf cloud computing and mobile apps to deploy sophisticated technologies in their supply chains and customer interfaces The New Ab Normal Another new normal is working from home Remote working enables individuals to live anywhere and companies to recruit talent from anywhere Education especially higher education faces a major disruption and major opportunity that is likely to shake the high cost model of in person education in favor of online or hybrid education Regrettably the book recognizes one trend accentuated by Covid 19 the growing inequality and anticipates that the new normal will be more stratified

**New Business and Regulatory Strategies in the Postal Sector** Pier Luigi Parcu,Timothy J. Brennan,Victor Glass,2019-02-13 This book addresses major issues facing postal and delivery services throughout the world Worldwide there is currently a considerable amount of interest in postal and delivery economics The industry is reacting to a state of near crisis and is implementing different drastic changes The European Commission and member States are still wrestling with the problem of how to implement entry liberalization into postal markets how to address digital competition and how to maintain the universal service obligation USO The Postal Accountability and Enhancement Act of 2006 in the U S has perhaps created and exacerbated the problems faced by USPS Digitalisation technological development and online platforms are strongly affecting both the way postal and delivery operators are managing their services as well as their role on the market Strong emphasis was attributed to the assets of Postal Operators POs and their added value in the digital age as well as on new business strategies This volume presents original essays by prominent researchers in the field selected and edited from papers presented at this year s 26th Conference on Postal and Delivery Economics held in Split Croatia from May 30 June 2 2018 Topics addressed by this volume include quality of service last mile solutions and competition in the liberalized market This book will be a useful tool not only for graduate students and professors but also for postal administrations consulting firms and federal government departments
