improvements and innovative labour practices for organisations to deal effectively with uncertainty and adapt sustainable and effective models for growth and performance for their businesses Lucid and topical this book will be useful for scholars and researchers of business management crisis management finance and economics as well as for business and corporate professionals **Economic Issues of Social Entrepreneurship** Elena G. Popkova, Bruno S. Sergi, 2021-10-06 Social entrepreneurship is one of the most controversial actualities of the modern economy On the one hand social entrepreneurship makes up for market failures and prevents the deficit of socially essential goods and services in the marketplace acting as their supplier On the other hand the survival of social entrepreneurship in an aggressive market environment is a challenging task the fulfilment of which may distort the original essence of social entrepreneurship Comprising a collection of research presented at the International Scientific Conference Advanced Issues on Social Entrepreneurship this contributed volume offers a global economic analysis of social entrepreneurship Whilst social entrepreneurship is indispensable to the modern economy the current controversial model of its organization means it cannot fully accomplish its mission This book offers potential solutions to this problem with the global and national strategies of economic growth and social progress It includes a focus on emerging markets in which the role of social entrepreneurship is especially high This book is aimed at scholars and students who are interested in social entrepreneurship and corporate economics and practitioners involved in this field It will also be of interest to policy makers in the development and implementation of a national economic policy for support for social entrepreneurship in emerging markets **The Nowhere Office** Julia Hobsbawm, 2022-02-17 As remote working becomes the norm rather than the exception for many office workers around the globe The Nowhere Office proposes a radical new way of thinking about work both now and in the future Offering a strategic and practical guide to negotiating this pivotal moment in the history of work The Nowhere Office addresses the problems which beset work the endemic stagnant productivity and crisis of stress which predate the pandemic and the new challenges of remote working repurposing offices for more creative interaction managing WFH teams and satisfying the demand for more purposeful work with greater work life balance Drawing on history cutting edge research and extensive interviews Julia Hobsbawm argues persuasively that now is the time to develop something better more meaningful and crucially more workable **Global Backlash** Robin Broad, 2022-03-20 Global Backlash is the first book to move beyond the monolithic portrayal of the globalization protests that have escalated since Seattle and are not likely to abate soon With trenchant analysis and dozens of primary documents from a variety of popular and uncommon sources Robin Broad explores proposals and initiatives coming from the backlash to answer the question But what do they want A range of sophisticated propositions and a vibrant debate among segments of the backlash emerge Highly readable and analytically powerful this book is vital to understanding the most potent protest movement of our times **The Discipline of Organizing: Informatics Edition** Robert J. Glushko, 2016-08-05 We organize things We organize information information about things

and information about information Organizing is a fundamental issue in many professional fields but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions The Discipline of Organizing synthesizes insights from library science information science computer science cognitive science systems analysis business and other disciplines to create an Organizing System for understanding organizing This framework is robust and forward looking enabling effective sharing of insights and design patterns between disciplines that weren't possible before The 4th edition of this award winning and widely adopted text adds content to bridge between the foundations of organizing systems and the new statistical and computational techniques of data science because at its core data science is about how resources are described and organized The 4th edition reframes descriptive statistics as organizing techniques expands the treatment of classification to include computational methods and incorporates many new examples of data driven resource selection organization maintenance and personalization The Informatics edition contains all the new content related to data science but omits the discipline specific content about library science museums and document archives [CA Magazine](#),2007 [The Image of the American West in Literature, the Media, and Society](#) Society for the Interdisciplinary Study of Social Imagery.
