Workplace Strategies and Facilities Management Rick Best, Gerard de Valence, Craig Langston, 2007-08-22 This book provides comprehensive coverage of issues that facility managers in the property industry need to understand and apply in the pursuit of value for money over the life span of built facilities. The authors introduce the fast growing discipline of facility management, examine the core competencies that facility managers should possess and study different contemporary drivers of change. The book emphasises the need to consider facilities management issues at the pre design stage of the construction process rather than only when the building is completed in order to maximise value for money.

**The Meme as the Message** Joanna Nowotny, Julian Reidy, 2025-10-31 This book sheds light on the phenomenon of memes covering everything from pandemic humour to far right propaganda from feminist memes to algorithmic censorship. Memes are far more than light entertainment; they are complex cultural artefacts that play a role in politics, in art, and in platform economics. Taking a cultural studies perspective, the authors analyse individual memes in entertaining case studies, systematising their findings in order to redefine this digital form of communication. Chapters connect memes with other digital phenomena such as trolling and combine extensive close readings of exemplary individual memes with regards to form and aesthetics with an acute awareness of power dynamics and other context phenomena surrounding memes. The book develops an innovative theoretical approach that presents the term 'memesis' to capture the very specific quality of meme production and reception as a form of collective creative rewriting of a template in accordance with algorithmic logic. Offering an important contribution not only to the still young field of meme studies but also to the general negotiations of questions around digital literacy, this book will interest not only scholars and students of digital media, visual communication, cultural studies, and media and politics but anyone with a keen interest in digital culture and how it shapes our lives.
