Peace And Conflict Studies A Reader:

Peace and Conflict Studies Charles Webel, Jørgen Johansen, 2012 *Peace and Conflict Studies A Reader* is a comprehensive and intensive introduction to the key works in this growing field. Presenting a range of theories, methodologies and approaches to understanding peace and to transforming conflict, this edited volume contains both classic and cutting edge contemporary analyses. The text is divided into six general sections: PART I Peace Studies, Peace Education and Peace; PART II Peace Theories and Peace Movements; PART III The Meanings and Nature of Conflict; PART IV Conflict Analysis, Transformation and Prevention; PART V Nonviolent Action and Political Change; PART VI Building Institutions and Cultures of Peace. With an extensive introduction as well as recommendations for further reading and questions for the classroom, *Peace and Conflict Studies A Reader* will be essential reading for students, teachers and practitioners of peace and conflict studies and conflict resolution. It is also highly recommended for students of peace operations, peacebuilding, sociology, international security and IR in general.

Peace and Conflict Studies Charles Webel, Jørgen Johansen, 2012 **Approaches to Peace** David P. Barash, 2010 *Approaches to Peace* provides a unique and interdisciplinary sampling of classic articles and short literary selections focusing on the diverse aspects of peace and conflict studies. Readings cover the causes of war and proposed means of preventing it and reflect upon the universal concern for positive peace. The material examines nonviolence, movements, peace movements, religious inspirations and our future prospects for peace. The book's balanced and unbiased approach makes it easily adaptable to both general discussions of peace and conflict as well as the rapidly changing issues of the moment. *Approaches to Peace* is able to stand on its own as a foundation text in any introductory peace studies course. It is also compact enough to use as a supplement with other more specialized readings or used in conjunction with a text. Each selection is prefaced by a short introduction highlighting the author's background, the work's historical context and the selection's significance in terms of the big picture. Study questions and a list of suggested readings at the end of each selection also provide a useful resource for students.
