Smart Home Review:

Sustainable Smart Homes and Buildings with Internet of Things Pramod Singh Rathore, Abhishek Kumar, Surbhi Bhatia, Arwa Mashat, Thippa Reddy Gadikal, 2025-01-02 Written and edited by a team of experts in the field this exciting new volume explores the real world applications and methods for using Internet of Things IoT to make homes and buildings smart and sustainable and to continue working toward a greener world *Sustainable Smart Homes and Buildings with Internet of Things* IoT is a book that explores the integration of renewable energy sources and IoT technology in the design and management of smart homes and buildings The book covers various topics related to the subject including energy efficiency real time monitoring control and optimization of renewable energy sources smart grid integration energy storage systems and microgrids The book explains how IoT technology can be used to collect data from various sensors and devices installed in smart homes and buildings to create a real time monitoring and control system for renewable energy sources which can help optimize energy usage and reduce waste It also discusses the challenges and opportunities associated with the integration of renewable energy sources in smart homes and buildings and how these challenges can be addressed through the use of IoT technology The book is intended for architects engineers building managers energy professionals and researchers interested in the design and management of sustainable smart homes and buildings It provides practical insights case studies and examples that illustrate the benefits of using renewable energy sources and IoT technology to create energy efficient environmentally friendly and comfortable living spaces Current and Future Trends on Intelligent Technology Adoption

Mohammed A. Al-Sharafi, Mostafa Al-Emran, Garry Wei-Han Tan, Keng-Boon Ooi, 2024-06-12 This book explores current and future trends in adopting intelligent technologies among individuals and organizations The edited book includes empirical and review studies primarily focusing on these issues This focus aids scholars in conducting future research in the domain and identifying possible future developments of emerging technologies The empirical studies in the book utilize recent and advanced analytical techniques for data analysis *IMPACT OF SCIENCE AND TECHNOLOGY IN ADVANCED RESEARCH IN NURSING AND MEDICAL SCIENCES*

DR. RAJEEV SINGH, DR. M S. BHADORIYA, MR. D D SHRIVASTAVA, 2019-08-07 The integration of telehealth nursing services with cloud technology represents a significant advancement in healthcare delivery offering improved access to care enhanced patient outcomes and increased efficiency in nursing practice This paper explores the various aspects of this integration including the technological infrastructure benefits challenges and future prospects Through a comprehensive review of current literature and case studies the paper highlights the transformative potential of cloud enabled telehealth in nursing emphasizing its role in addressing healthcare disparities enhancing patient engagement and optimizing clinical workflows Telehealth nursing services have gained momentum as a vital component of modern healthcare especially in the wake of the COVID 19 pandemic These services which leverage digital communication technologies to deliver care remotely are increasingly integrated with cloud

technology to enhance their effectiveness Cloud computing offers scalable secure and cost effective solutions that can support the expansive data needs of telehealth services 1 This paper aims to study the integration of telehealth nursing services with cloud technology focusing on how this integration enhances patient care Telehealth nursing involves the use of electronic communication tools to provide nursing care to patients who are geographically separated from healthcare providers 2 3 These services include virtual consultations remote monitoring health education and chronic disease management

Emerging Trends and Innovation in Business and Finance Rim El Khoury, Nohade Nasrallah, 2023-10-28 This book explores diverse dimensions of innovation in business and finance from a micro as well as macro perspective through various case studies and analyses of trends The previous decade is known as the era of digital transformation and innovation The rise of new technologies is having an impact on the global trends and leading to innovation in business and finance In this competitive market businesses and financial institutions must be responsive to the trends in order to survive and thrive governments must cope with the complex and uncertain environments by being smart transforming service delivery and implementing smart governance practices and entrepreneurs and investors are faced with alternative sources of finance and investment However keeping up with these trends and innovations is fraught with its own set of challenges Thus it is important to analyze new and emerging technologies and innovations through a myriad of disciplinary lenses This book not only expands conceptual understanding of digital transformation and innovation by presenting strong empirical evidence but also by adding to the vigorous worldwide policy discussion on how to assist businesses in the digital transition The book will be useful to scholars and researchers of business management financial management business economics international business human resources and marketing It will also be of interest to entrepreneurs policymakers academicians and practitioners in the field

Interdisciplinary Assessment of Personal Health Monitoring S. Schmidt, O. Rienhoff, 2013-07-17 Europe is facing a paradox while governments try to curb public spending the demands on our healthcare systems continue to rise The use of smart technologies and innovation can help to address the challenges faced by healthcare systems today such as an ageing population a shortage of healthcare professionals and restrictions on financial resources But despite increasing evidence of the benefits technology can bring the healthcare sector has been slow to embrace the digital revolution and has stuck to more traditional methods and models This book presents selected contributions to the symposium on Personal Health Monitoring PHM and Ethics and future areas of PHM which took place in advance of the 11th World Congress of Bioethics held in Rotterdam the Netherlands in June 2012 Most of the papers present the outcomes of the European PHM Ethics project which conducted interdisciplinary analyses of emerging PHM applications Additional invited contributions deal with important issues related to the project's primary objectives and outcomes The project is strongly associated with the new e Health Action Plan launched by the European Commission in December 2012 which is designed to bring the benefits of digital solutions into healthcare systems The book covers a broad spectrum ranging from the technical

setup of PHM systems to ethical issues raised by PHM applications and will be of interest to all those concerned with improving the provision of healthcare worldwide
