A Road Map to PLC Success Sean McWherter, 2017-03-16 Educators often have trouble properly implementing Professional Learning Communities PLCs because they simply don't know how the process is supposed to work. By cutting through the fluff and generalities, this book provides a clear road map that takes school leaders step by step through the entire PLC process. Each chapter addresses a foundational component or protocol necessary for building successful team-based learning communities using real-life examples to help teachers and leaders understand how to integrate this process and avoid common pitfalls that inhibit implementation. Whether you're just starting the PLC process or you're looking to get more out of your PLCs, this book will lead you to continued student and teacher growth regardless of current achievement levels, socioeconomic status, or impending curricular changes.

The Digital Reader Terence W. Cavanaugh, 2006 The rapidly increasing availability and low cost of e-book technology make it perfect for schools and educators looking to expand their resources for readers. This book introduces the unique features that have established e-books as a powerful, effective learning tool for all grade levels and for special needs students. It includes descriptions and illustrations of the most popular e-book platforms and programs, as well as dozens of practical ideas for using e-books for reading instruction, personal productivity, and curricular enrichment. Brimming with interactive lesson ideas, teaching tips, and online resources, this book is a must-have for teachers in all content areas and library media specialists. Descriptions of the most popular and affordable e-book devices, software, and content for educators. Guidelines for accessing the free digital library resources available on the Web and for creating your own e-books using basic software tools. Strategies for using the annotation, reference, and hypertext capabilities of electronic text to promote active reading.
