**Algorithmic Marketing and EU Law on Unfair Commercial Practices** Federico Galli, 2022-08-30 Artificial Intelligence AI systems are increasingly being deployed by marketing entities in connection with consumers interactions Thanks to machine learning ML and cognitive computing technologies businesses can now analyse vast amounts of data on consumers generate new knowledge use it to optimize certain processes and undertake tasks that were previously impossible Against this background this book analyses new algorithmic commercial practices discusses their challenges for consumers and measures such developments against the current EU legislative framework on consumer protection The book adopts an interdisciplinary approach building on empirical findings from AI applications in marketing and theoretical insights from marketing studies and combining them with normative analysis of privacy and consumer protection in the EU The content is divided into three parts The first part analyses the phenomenon of algorithmic marketing practices and reviews the main AI and AI related technologies used in marketing e g Big data ML and NLP The second part describes new commercial practices including the massive monitoring and profiling of consumers the personalization of advertising and offers the exploitation of psychological and emotional insights and the use of human like interfaces to trigger emotional responses The third part provides a comprehensive analysis of current EU consumer protection laws and policies in the field of commercial practices It focuses on two main legal concepts their shortcomings and potential refinements vulnerability understood as the conceptual benchmark for protecting consumers from unfair algorithmic practices manipulation the substantive legal measure for drawing the line between fair and unfair practices Deconstructing Digital Capitalism and the Smart Society Mel van Elteren, 2025-01-01 Today s critics of big online platforms tend to consider privacy breaches monopolistic practices and the deployment of surveillance technologies as the main problems Internet reformers suggest the answers to these issues reside in more and better regulations While the questions of privacy data and size are indeed important they are secondary however to a deeper set of concerns about platform ownership and control and who benefits from the current status quo This book examines these issues and offers an historical overview and in depth analysis of digital capitalism and its prevailing practices as it has become increasingly intertwined with various forms of online surveillance behavior modification and the delegation of managerial functions to algorithmic and automated systems in platform economies The approach taken extends to the wider array of data driven internet connected and automated systems that involve digital devices and technologies centered on three smart spaces the smart self the smart home and the smart city Antitrust and other regulatory measures by the European Union and the United States that are aimed at restraining platform capitalism are also discussed The focus in particular is on recent developments regarding artificial intelligence and their potentially harmful implications This is followed by a critical look at proposals for more far reaching institutional reforms revolving around the creation of forms of platform socialism that build partly on existing practices of platform cooperativism The book

concludes with a diagnosis of the global situation among the competing digital empires the United States the European Union and China and considers whether or not under the present conditions any form of democratic platform socialism could materialize on a wider scale in the near future     *Technology and the Virtues* Shannon Vallor,2016 New technologies from artificial intelligence to drones and biomedical enhancement make the future of the human family increasingly hard to predict and protect This book explores how the philosophical tradition of virtue ethics can help us to cultivate the moral wisdom we need to live wisely and well with emerging technologies     Current Law Index ,2007     A Primer on the Law of Deceptive Practices Earl W.
