MALABAR MANUAL by William Logan, Commentary William Logan's Malabar is popularly known as Malabar Manual It is a huge book of more than 500 000 words It might not be possible for a casual reader to imbibe all the minute bits of information from this book However in this commentary of mine I have tried to insert a lot of such bits and pieces of information by directly quoting the lines from Malabar On these quoted lines I have built up a lot of arguments and also added a lot of explanations and interpretations I do think that it is much easier to go through my Commentary than to read the whole of William Logan's book Malabar However the book Malabar contains much more items than what this Commentary can aspire to contain This book Malabar will give very detailed information on how a small group of native Englishmen built up a great nation by joining up extremely minute bits of barbarian and semi barbarian geopolitical areas in the South Asian Subcontinent

Moving Beyond Fear Charles Derber, Yale R. Magrass, 2018-12-07 While security stories often point to real threats the narratives of leaders are as much about legitimating the power of rulers and the political and economic system that brought them to power Derber and Magrass offer a penetrating examination of this phenomenon across history and types of societies Their analysis reveals the great irony about security stories they historically increase insecurity imperiling citizens and

nation In the US today the contradiction is especially acute as security stories told by Trump divide US citizens against one another The book builds from an analysis of the extreme dangers of the prevailing security stories to a new paradigm of true security The authors develop new approaches as our best hope for avoiding catastrophe and creating a socially just society based on real security for a nation and for humans across the planet

The Elephant and the Flea Charles B. Handy, 2001 We are faced with a tug of war between our desire for a separate identity and our need for combination We want to be ourselves but to survive in a bigger world we also need to be part of something bigger Fleas need elephants just as elephants need fleas to keep them alert and dancing This applies to my own life story as I found elephants too imprisoning to my eventual freedom as a flea But the idea also applies to economies who need both to business which has to structure itself to allow fleas to co exist with the elephants to society which needs to encourage individualism but needs the conformity of the elephant to education to religion to marriage and other relationships and to all people seeking to structure their lives
