*Serials and Contributions to Periodicals* Library of Congress, Copyright Office, 1977 *Favorite Recorder Tunes - Medieval Gems* Robert Bancalari, 2023-09-01 This volume focuses on the medieval period from approximately the sixth to fifteenth centuries. The music of this era was traditionally performed as plainchant, sacred or monophony, secular, that is, as a vocal melody here reserved for the soprano recorder. Seeking to emulate medieval performance practice, the 20 tunes in this collection are accompanied by a single drone, like power or 5 chord, to be played on a modern day stringed instrument such as guitar, mandolin or banjo. These simple troubadour songs are ideal for beginners and experienced players alike who want to be transported back in time, immersed in a bygone era of music. Children's Recorder Method William Bay, Sigurlina

Jonsdottir, 2004-05 *Mel Bay's Children's Recorder Method* is a new recorder method which stands on its own. There is an

imaginative accompaniment CD which makes even the simplest one note exercise into an attractive experience for the young student and there are lyrics to all the songs Large notes are used throughout and each melody is attractively illustrated Clear and concise instructions introduce technique and notation concepts gradually These books use many Icelandic songs and folk songs some of which may even date from the time of Leif Eriksson This gives the method a unique flavor and allows the introduction of many unusual melodic and rhythmic elements The first book is based on the six easiest notes on the recorder and the accompaniment will help the student happily gain a firm rhythmic feeling and above all have fun while learning
