Welburn, Wilson Price, 1990 A substantial revision of the best selling introductory Cobol text Cobol 85 is interspersed throughout the book with selective examples showing both the 74 and 85 code This new edition includes software to allow students to work on a microcomputer     Making MS-DOS & PC-DOS Work for You , 1984     File Organization and Access

Richard H. Austing, Lillian N. Cassel, 1988     **File Processing in COBOL** Yuksel Uckan, 1992     **Handbook on Impact Evaluation** Shahidur R. Khandker, Gayatri B. Koolwal, Hussain A. Samad, 2010 Public programs are designed to reach certain goals and beneficiaries Methods to understand whether such programs actually work as well as the level and nature of impacts on intended beneficiaries are main themes of this book Has the Grameen Bank for example succeeded in lowering consumption poverty among the rural poor in Bangladesh Can conditional cash transfer programs in Mexico and Latin America improve health and schooling outcomes for poor women and children Does a new road actually raise welfare in a remote area in Tanzania or is it a highway to nowhere This book reviews quantitative methods and models of impact evaluation It begins by reviewing the basic issues pertaining to an evaluation of an intervention to reach certain targets and goals It then focuses on the experimental design of an impact evaluation highlighting its strengths and shortcomings followed by discussions on various non experimental methods The authors also cover methods to shed light on the nature and mechanisms by which different participants are benefiting from the program For researchers interested in learning how to use these models with statistical software the book also provides STATA exercises in the context of evaluating major microcredit programs in Bangladesh such as the Grameen Bank The framework presented in this book can be very useful for strengthening local capacity in impact evaluation among technicians and policymakers in charge of formulating implementing and evaluating programs to alleviate poverty and underdevelopment     *Data Management Using Stata*

Michael N. Mitchell, 2010-05-24 Using simple language and illustrative examples this book comprehensively covers data management tasks that bridge the gap between raw data and statistical analysis Rather than focus on clusters of commands the author takes a modular approach that enables readers to quickly identify and implement the necessary task without having to access background information first Each section in the chapters presents a self contained lesson that illustrates a particular data management task via examples such as creating data variables and automating error checking The text also discusses common pitfalls and how to avoid them and provides strategic data management advice Ideal for both beginning statisticians and experienced users this handy book helps readers solve problems and learn comprehensive data management skills     **DBASE Compiler for DOS Developer's Guide** Pierre Lapointe, Zouhair Janbay, 1994 From the source the know how and the tools needed to tap the power of the latest release of Borland's long awaited product dBASE Compiler for DOS Here is the inside story on how to use this optional add on to the dBASE package to create fast efficient royalty free applications that can be distributed independently of the full dBASE software system     *Computer Science* Behrouz A. Forouzan, Richard F. Gilberg, 1997 Computer Science A Structured Programming Approach Using C presents both computer

science theory and its implementations in the C language with a depth first approach It follows a clear organizational structure supplemented by easy to follow charts and tables All programs and functions are developed in a consistent and readable style based on the authors extensive academic and industry experience The first half of the book builds a firm understanding of expressions introducing pointers only to the extent necessary to cover pass by reference and arrays Beginning with Chapter 9 the text develops the concept of pointers ending with a simple introduction to linked lists
