[Google Leaks](#) Zach Vorhies,Kent Heckenlively,2021-08-03 A Story of Big Tech Censorship and Bias and the Fight to Save Our Country The madness of Google s attempt to mold our reality into a version dictated by their corporate values has never been portrayed better than in this chilling account by Google whistleblower Zach Vorhies As a senior engineer at Zach watched in horror from the inside as the 2016 election of Donald Trump drove Google into a frenzy of censorship and political manipulation The American ideal of an honest hard fought battle of ideas when the contest is over shaking hands and working together to solve problems was replaced by a different darker ethic alien to this country s history

as wave after of censorship destroyed free speech and entire market sectors Working with New York Times bestselling author Kent Heckenlively Plague of Corruption Vorhies and Heckenlively weave a tale of a tech industry once beloved by its central figure for its innovation and original thinking turned into a terrifying woke church of censorship and political intolerance For Zach an intuitive counter thinker brought up on the dystopian futures of George Orwell Aldous Huxley and Ray Bradbury it was clear that Google was attempting nothing less than a seamless rewriting of the operating code of reality in which many would not be allowed to participate Using Google s own internal search engine Zach discovered their real AI Censorship system called Machine Learning Fairness which he claims is a merging of critical race theory and AI that was secretly released on their users of search news and YouTube He collected and released 950 pages of these documents to the Department of Justice and to the public in the summer of 2019 through Project Veritas with James O Keefe which quickly became their most popular whistleblower story which started a trend of big whistleblowing From Google re writing their news algorithms to target Trump to using human tragedy emergencies to inject permanent blacklists Zach and Kent provide a you are there perspective on how Google turned to the dark side to seize power They finish by laying out a solution to fight censorship Read this book if you care to know how Google tries to manipulate censor and downrank the voice of its users
