Authentically Medieval Debra E. Best,,Elizabeth L. Rambo,Patricia H. Ward,2024-10-16 This collection compiles essays by medievalist scholars that examine the variety of ways authors have fictionalized the medieval period while meeting the challenge of creating engaging literature More significantly this project seeks to explore the importance of authenticity in these works of medievalism The works discussed represent a variety of genres including historical young adult Arthurian detective fiction paranormal romance and fantasy as well as adaptations of Beowulf and Chaucer s Canterbury Tales Opening the collection are three essays by author scholars who share their processes of creating an authentic medieval world appealing to a wide audience The remaining seven essays by medievalist scholars examine a variety of medievalist texts addressing the extent to which their authors adhere to the facts of the period while at times necessarily filling in historical gaps in the process of creating these works Each of the essays addresses the concept of authenticity in fiction about the Middle Ages together they become a lively conversation about authenticity in narratives of various genres **Medieval**

Women on Film Kevin J. Harty,2020-04-02 In this first ever book length treatment 11 scholars with a variety of backgrounds in medieval studies film studies and medievalism discuss how historical and fictional medieval women have been portrayed on film and their connections to the feminist movements of the 20th and 21st centuries From detailed studies of the portrayal of female desire and sexuality to explorations of how and when these women gain agency these essays look at the different ways these women reinforce defy and complicate traditional gender roles Individual essays discuss the complex and sometimes conflicting cinematic treatments of Guinevere Morgan Le Fay Isolde Maid Marian Lady Godiva Heloise Eleanor of Aquitaine and Joan of Arc Additional essays discuss the women in Fritz Lang s The Nibelungen Liv Ullmann s Kristin Lavransdatter and Bertrand Tavernier s La Passion Beatrice [The Rise and Fall of British Crusader Medievalism](#)

[c.1825-1945](#) Mike Horswell,2018-01-29 This book investigates the uses of crusader medievalism the memory of the crusades and crusading rhetoric and imagery in Britain from Walter Scott s The Talisman 1825 to the end of the Second World War It seeks to understand why and when the crusades and crusading were popular how they fitted with other cultural trends of the Victorian and Edwardian eras how their use was affected by the turmoil of the First World War and whether they were differently employed in the interwar years and in the 1939 45 conflict Building on existing studies and contributing the fruits of fresh research it brings together examples of the uses of the crusades from disparate contexts and integrates them into the story of the rise and fall crusader medievalism in Britain **Medievalism in Finland and Russia** Reima

Välimäki,2022-11-03 Since the end of the Cold War the Middle Ages has returned to debates about history culture and politics in Northern and Eastern Europe This volume explores political medievalism in two language areas that are crucial to understanding global medievalism but are due to language barriers often inaccessible to the majority of Western scholars and students The importance of Russian medievalism has been acknowledged but little analysed until now Medievalism in

Finland and Russia offers a selection of chapters by Russian Finnish and American scholars covering historiography presidential speeches participatory online discussions and the neo pagan revival in Russia Finland is currently even more poorly understood than Russia in the discussions about global medievalism It is usually mentioned only as of the birthplace of the Soldiers of Odin The street patrol is however a marginal phenomenon in Finnish medievalism as this volume demonstrates Instead of merely adopting the medievalist interpretation of the international alt right even the right wing populists in Finland refer more to the nationalistic medievalist tradition where crusades do not mark a Western Christian victory over the Muslim East but a Swedish occupation of Finnish lands In addition to presenting particular cases of medievalism the chapters here on Finland challenge and diversify today s prevailing interpretation of shared online medievalism of European and American right wing populists This book reveals that while medievalisms in Finland and Russia share many features with the contemporary Anglo American medievalist imaginations they also display many original characteristics due to particular political situations and indigenous medievalist traditions They have their own meta medievalisms cumulative core ideas and interpretations about the medieval past that are thoroughly examined here in English for the very first time The Middle Ages in Popular Imagination Paul B. Sturtevant, 2018-02-28 It is often assumed that those outside of academia know very little about the Middle Ages But the truth is not so simple Non specialists in fact learn a great deal from the myriad medievalisms post medieval imaginings of the medieval world that pervade our everyday culture These like Lord of the Rings or Game of Thrones offer compelling if not necessarily accurate visions of the medieval world And more they have an impact on the popular imagination particularly since there are new medievalisms constantly being developed synthesised and remade But what does the public really know How do the conflicting medievalisms they consume contribute to their knowledge And why is this important In this book the first evidence based exploration of the wider public s understanding of the Middle Ages Paul B Sturtevant adapts sociological methods to answer these important questions Based on extensive focus groups the book details the ways both formal and informal that people learn about the medieval past and the many other ways that this informs and even distorts our present In the process Sturtevant also sheds light in more general terms onto the ways non specialists learn about the past and why understanding this is so important The Middle Ages in Popular Imagination will be of interest to anyone working on medieval studies medievalism memory studies medieval film studies informal learning or public history **Medievalism** Elizabeth Nicole Emery, Richard J. Utz, 2014 Definitions of keywords and terms for the study of medievalism Land, People and Power in Early Medieval Wales Rhiannon Comeau, 2020 This study examines the structure of the early medieval Welsh landscape Using a cantref hundred in south west Wales as a case study it draws on a multidisciplinary comparative analysis to overcome the limits imposed by restricted material culture survival and limited written sources It examines the patterns of power and habitual activity that defined spaces and structured lives and considers the temporal relationships both seasonal and longue dur e

that shaped them Four key findings are presented Firstly that key areas of early medieval life agriculture tribute payment legal processes and hunting were structured by a longstanding seasonal patterning that is preserved in twelfth and thirteenth century Welsh law church and well dedications and fair dates Secondly it presents at cantref level the first systematic survey of assembly site evidence in Wales and sets it in comparative context Thirdly it demonstrates that though poor material culture preservation and limited written records have hitherto restricted identification and characterisation of key locations in the early medieval Welsh landscape a multidisciplinary dataset allows effective identification of focal zones through indicators known from other areas of north west Europe Fourthly the widely used multiple estate model is found to be an inadequate descriptor of the early medieval Welsh landscape An alternative approach is proposed Methodologically it demonstrates the value of a multidisciplinary approach especially the systematic use of place names which is novel in a Welsh context It also provides key resources for other researchers by geolocating pre 1700 place names from a previously published survey creating GIS resources polygons and geolocated databases from the 1840s tithe map and schedules for parishes in its detailed case study areas and providing a geolocated database of 16th century demesne and Welsh law landholdings in the cantref

book's authors describe the formation of this one-of-a-kind collection and the history of TIEM whose centuries-old records on patrons, calligraphers, illuminators, and provenance allow us to create biographies detailing the production of the Qur'ans in the exhibition. Essays address the Qur'an as a written text from content and organization to the elaborate calligraphy and illuminated designs that transformed the volumes into beautiful artworks. The Art of the Qur'an also includes in-depth descriptions of some seventy works from TIEM and the Smithsonian's Sackler and Freer Galleries. It features full-page color images of the earliest known Qur'an folios and manuscripts from the Umayyad and Abbasid Near East 7th-10th century Seljuk Iran and Anatolia 12th century the Mongol Il-Khanid and Timurid empires and Mamluk Cairo 14th and 15th centuries Safavid and Ottoman empires 16th and 17th centuries as well as a number of mosque furnishings such as Qur'an boxes and stands. Most of these works have rarely if ever been published.

Wallingford K. S. B. Keats-Rohan, Neil Christie, David Roffe, 2015. Medieval castles are, as Professor Liddiard states in his Foreword to this volume, evocative monuments and perhaps more than any other building capture the ideals of the Middle Ages. This idealization and romanticism of castles, however, can often obscure their histories as functioning dwellings, fortresses, and political and social centres. Wallingford Castle in Oxfordshire is a prime example of a structure with a rich history. Its importance lies in its strategic position on the Thames, allowing it to serve as a vital stronghold during conflicts and a royal residence in more peaceful times. This volume is a product of the Wallingford Burh to Borough Research Project 2008-2010, a collaborative project between the Universities of Leicester, Exeter, and Oxford. It contains reports of excavations undertaken at the castle and its town, excavated between the 1960s and today. The results of the archaeological investigations are contextualized using contemporary documents and accounts of the castle, such as surveys and rent agreements. Combining the text and material evidence, the contributions to this volume provide a detailed narrative of the history of the site from its construction to its destruction, as well as helpful contextual sections on English history and medieval castles. Also included are sections on excavations at the castle, at the nearby town of Oxford, and the priory at Wallingford. The text is accompanied by colour photographs, drawings, plans, maps, and transcripts of the Medieval and Tudor documents. This volume accompanies *The Origins of the Borough of Wallingford: Archaeological and historical perspectives*, edited by K. S. B. Keats-Rohan and D. R. Roffe in 2009 (BAR 494) and *Transforming Townscapes: From burh to borough: the archaeology of Wallingford AD 800-1400*, edited by N. Christie and O. H. Creighton in 2013, published by the Society for Medieval Archaeology.
