 Boring,Margaret Floy Washburn,1913      A Treatise on mental diseases Henry Johns Berkley,1900 The absence from English  
 medical literature of a comprehensive practical work on mental diseases one adapted to the needs of the busy practitioner as  
 well as to those of the student of psychiatry has led the writer to prepare this treatise embodying a consideration of all the  
 principal forms of psychical disturbance Although it is evident from the intrinsic nature of the subject that such an attempt  
 can be only partially successful it is to be hoped that the book will add something to the certain knowledge of the practitioner  
 and render more accessible what has been heretofore almost an unknown territory of medicine Preface PsycINFO Database

 an in depth look at the ways creative traits the arts and entertainment industries and mental health interact This hands on  
 guide examines many of the issues that afflict creative populations such as performance anxiety psychiatric disorders and  
 occupational stress with a nuanced understanding of the roles that creativity and the arts play in the lives of these individuals  
 Each chapter provides examples of specific goals and interventions for clinical practice including additional space for  
 clinicians to write down ideas tailored to their clients unique needs This is essential reading for practitioners looking to treat  
 creative clients psychological difficulties with insight and sensitivity      A Mental Healthcare Model for Mass Trauma  
Survivors Metin Basoglu,Ebru Salcioglu,2011-03-03 Mass trauma events such as natural disasters war and torture affect  
 millions of people every year Currently there is no mental health care model with the potential to address the psychological  
 needs of survivors in a cost effective way This book presents such a model along with guidance on its implementation making  
 it invaluable for both policy makers and mental health professionals Building on more than twenty years of extensive  
 research with mass trauma survivors the authors present a model of traumatic stress to aid understanding of mass trauma  
 and how its psychological impact can be overcome with control focused behavioral treatment This text offers a critical review  
 of various controversial issues in the field of psychological trauma in light of recent research findings Including two  
 structured manuals on earthquake trauma covering treatment delivery and self help the book will be of use to survivors  
 themselves as well as care providers      **Use of Pragmatic Information in Interpretation of Metaphorical Sentences**
