Sandars,2023-07-04 Focusing on Netflix's child and family orientated platform exclusive content this book offers the first exploration of a controversial genre cycle of dark science fiction horror and fantasy television under Netflix's Family Watch Together TV tag. Using a ground breaking mix of methods including audience research interface and textual analysis the book demonstrates how Netflix is producing dark family telefantasy content that is both reshaping child and family friendly TV genres and challenging earlier broadcast TV models around child appropriate family viewing. It illuminates how Netflix encourages family audiences to watch together through intergenerational dynamics that work on and offscreen. The chapters in this book explore how this Netflixication of family television developed across landmark examples including Stranger Things, A Series of Unfortunate Events, The Dark Crystal, Age of Resistance and even Squid Game. The book outlines how Netflix is consolidating a new dark family terrain in the streaming sector which is unsettling older concepts of family viewing leading to considerable audience and critical confusion around target audiences and viewer expectations. This book will be of particular interest to upper level undergraduates, graduates and scholars in the fields of television studies, screen genre studies, childhood studies and cultural studies.

Creating Church Online Tim Hutchings, 2017-04-21 Online churches are internet based Christian communities pursuing worship, discussion, friendship, support, proselytization and other key religious goals through computer mediated communication. Hundreds of thousands of people are now involved with online congregations generating new kinds of ritual leadership and community and new networks of global influence. *Creating Church Online* constructs a rich ethnographic account of the diverse cultures of online churches from virtual worlds to video streams. This book also outlines the history of online churchgoing from its origins in the 1980s to the present day and traces the major themes of academic and Christian debate around this topic. Applying some of the leading current theories in the study of religion, media and culture to this data, Tim Hutchings proposes a new model of religious design in contexts of mediatization and draws attention to digital networks, transformative third spaces and terrains of existential vulnerability. *Creating Church Online* advances our understanding of the significance and impact of digital media in the religious and social lives of its users in search of new theoretical frameworks for digital religion.
