Online Maps with APIs and WebServices Michael P Peterson,2012-03-30  
The Internet has become the major form of map delivery The current presentation of maps is based on the use of online services This session examines developments related to online methods of map delivery particularly Application Programmer Interfaces APIs and MapServices in general including Google Maps API and similar services Map mashups have had a major impact on how spatial information is presented The advantage of using a major online mapping site is that the maps represent a common and recognizable representation of the world Overlaying features on top of these maps provides a frame of reference for the map user A particular advantage for thematic mapping is the ability to spatially reference thematic data

Oceanic Wave Energy Conversion Omar Farrok,Md Rabiul Islam,2024-02-26 This book aims to collect the latest theoretical and technological ideas in design and construction for different kinds of oceanic wave energy converters including linear electrical generators and drive systems Advancements in new wave energy converters linear machine

topologies integrated mathematical modeling application of high graded magnetic materials and high performance control strategies are of great interest With the ability to generate direct thrust without any mechanical transmission the linear electrical machines serve as the excellent choice for wave energy generators free piston engine industrial applications requiring linear motion and so on On the other hand the special characteristics of linear electrical machines such as the large air gap length force ripples end effects cogging force cut open magnetic circuit half filled end slot pose a great challenge to the engineer and scientist The challenge is not only for designing electrical machines but also for control strategies The chapters of this book have been structured with theoretical simulation and experimental results in such a way that it provides a consistent compilation of fundamental theories a compendium of current research and development activities as well as new directions to overcome critical limitations
