is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment

results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs

teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and

Huot have written sophisticated but accessible chapters on the history theory application and background of writing

assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs

Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular

classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen

outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation
