Onno Greiner, architect Marc van der Marck, Onno Greiner, 1985-01-01 **Gids voor moderne architectuur in Nederland** Paul Groenendijk, Piet Vollaard, Piet Rook, 1998 Reis gids voor moderne Nederlandse architectuur waarin ruim 700 objecten worden afgebeeld en beknopt beschreven Queering Architecture Marko Jobst, Naomi Stead, 2024-05-30 Featuring contributions from a range of significant voices in the field this volume renews the conversation around what it means to speak of the queer in the context of architecture and offers a fresh take on the methodological and epistemological challenges this poses to the discipline of architectural theory Architecture as a discipline a profession and an applied practice is always subordinate to its own conceptual framework which is one of orderliness It refers to buildings but also to infrastructures of thought and knowledge to conventions and taxonomies to structures of governance hierarchies of power and systems of administration How then can one look at queering architectural discourse when the very term queer celebrated for its elusive slippery nature resists and attacks such order Divided into four subsections the essays in this anthology each pursue a distinct line of inquiry methods practices spaces and pedagogies in order to help particularize the proposed queering of architecture They demonstrate the paradoxical nature of the endeavour from a diverse range of perspectives from the questions of mapping queer theory in architecture to the issues of queer architectural archives or lack thereof to the non Western linguistic challenges to the very term queer alongside decolonial approaches to architecture via indigeneity and landscape Queering Architecture not only provides a bold challenge to the normative methods employed in architectural discourse but addresses the paradoxical nature of establishing queer methodologies in itself Essential reading for architectural and queer theorists **The Architects' Journal** ,1991 **Structuralism in Dutch Architecture** Wim J. van Heuvel, Wim J Heuvel (van), 1992 Overzicht van een aantal architectuurprojecten uit de periode 1960 1991 die wel door de term structuralisme worden benoemd **Architectural Publications Index** ,1998 **Union List of Artist Names: E-K** ,1994 Architecture Series: Bibliography ,1986 ABM ,1986 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 **TD & T.** United States Institute for Theatre Technology, 1997

Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division, 1975 **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library, 1991 Critical seventies Martien de Vletter, 2004 There is no period in the history of the Netherlands which excites such emotion resistance or aversion as the decade of the 1970s Following in the wake of the democratization wave of 1968 some regard the 1970s as a period when

pluralism was possible and desirable at all levels For others the crowning moment of 1968 degenerated into a quagmire of public consultation and a culture of always inconclusive committee meetings The 70s were either hip and groundbreaking or dogmatic and rigid The architecture of the time which headed off in pursuit of new definitions and forms is similarly divisive Though a number of architectural trajectories were driven by a devoted social engagement and a profound belief in architecture as a means of molding society the sheer plethora of movements failed to generate a single and unanimous alternative resulting instead in polarization and pluralism The Critical Years focuses on architecture urban planning and spatial planning from 1968 to 1982 Specific projects from the period are discussed and extensively documented on the basis of six themes and an introductory essay considers the context in which building and planning changed so radically With the imminent demolition and renovation of much of the infrastructure and architecture of the 1970s this book is a critical and timely document of one of the most important periods for architecture in the Netherlands Theatre Design and Technology,1997 Issues for 1965 include Recent publications on theatre architecture no 13 14 *Theatre Design & Technology*,1978 Issues for 1965 include Recent publications on theatre architecture no 13 14 **Auditoria** Michael Forsyth,1987 World Architecture,1997 *Amsterdam Architecture, 1991-93* Maarten Kloos,1994 **Theatre Space** Francis Reid,2006 In the post war world of the 1950s and 60s the format of theatre space became a matter for a debate that aroused passions of an intensity unknown before or since The proscenium arch was clearly identified as the enemy accused of forming a barrier to disrupt the relations between the actor and audience An uneasy fellow traveller at the time Francis Reid later recorded his impressions whilst enjoying performances or working in theatres old and new and this book is an important collection of his writings in various theatrical journals from 1969 2001 including his contribution to the Cambridge Guide to the Theatre in 1988 It reports some of the flavour of the period when theatre architecture was rediscovering its past in a search to establish its future **Avery Index to Architectural Periodicals** Avery Library,1985
