**The Metaverse, Immersive Virtual Reality and its Implications on Human Behavior** Bernady O. Apduhan, Osvaldo Gervasi, JungYoon Kim, Damiano Perri, Sabina Curti, 2025-03-21 The metaverse is a synthetic environment in which users interact in various ways The key feature is the user s immersion in the virtual world and the possibility to experience different forms of interaction The shift into the virtual realm of social interactions in the metaverse introduces a very important complexity in the study of human behavior Modern immersive virtual reality technologies represents

sometimes exciting tools for addressing the complex problems of contemporary life like telerehabilitation distance and continuous learning entertainment and social interactions This new way of interacting with others also due to the characteristics of the hardware used and the type of stimuli the user receives that isolate him or her from the real context can lead to forms of deviance and even sometimes to crime

### **Regulating the Metaverse**

Ignas Kalpokas, Julija Kalpokienė, 2023-01-26

The metaverse seems to be on everybody's lips and yet very few people can actually explain what it means or why it is important This book aims to fill the gap from an interdisciplinary perspective informed by law and media and communications studies Going beyond the optimism emanating from technology companies and venture capitalists the authors critically evaluate the antecedents and the building blocks of the metaverse the design and regulatory challenges that need to be solved and commercial opportunities that are yet to be fully realised While the metaverse is poised to open new possibilities and perspectives it will also be a dangerous place one ripe with threats ranging from disinformation to intellectual property theft to sexual harassment Hence the book offers a useful guide to the legal and political governance issues ahead while also contextualising them within the broader domain of governance and regulation of digital technologies
