Middle Passages Middle Passages:

Middle Passages and the Healing Place of History Elizabeth Brown-Guillory, 2006 *Middle Passages and the Healing Place of History* Migration and Identity in Black Women's Literature brings together a series of essays addressing black women's fragmented identities and quests for wholeness. The individual essays concern culturally specific experiences of blacks in select African countries, England, the Caribbean, the United States, and Canada. They examine identity struggles by establishing the Middle Passage as the first site of identity rupture and the subsequent break from cultural and historical moorings. In most cases, the authors themselves have migrated from their places of origin to new spaces that present challenges. Their narratives replicate the displacement engendered by their own experiences of living with the complexities of diasporic existence. Their female characters, many of whom participate in multiple border crossings, work to define themselves within a hostile environment. In nearly every essay, the female characters struggle against multiple yokes of oppression, giving voice to what it means to be black, female, poor, old, and alone. The subjects' migrations and journeys are analyzed as attempts to heal the displacement, both physical and psychological, that results from dislocation and relocation from the homeland, imagined variously as Africa. This volume reveals that black women across the globe share a common ground fraught with struggles, but the narratives bear out that these women are not easily divided and that they stand upon each other's shoulders, dispensing healing balms. Black women's history and herstory commingle the trauma that ensued when Africans were loaded onto ships in chains; continues to haunt black women and men too wherever they find themselves in this present moment of the Diaspora.

No previous book has highlighted the diversity and centrality of middle passages, voluntary and involuntary, to modern global history. Kenneth Morgan, author of *Slavery and the British Empire*. This volume extends the now well-established project of Atlantic World Studies beyond its geographic and chronological frames to a genuinely global analysis of labour migration. It is a work of major importance that sparkles with new discoveries and insights. Why then? Why do we consider it to be a crisis? What does the pattern mean, and how can we survive it? The Middle Passage shows how we may pass through midlife, consciously rendering our lives more meaningful and the second half of life immeasurably richer.

Passage. The Roles of Ramón Ferrer and Theodore Canot in the Transatlantic Slave Trade Silvan Wilsch, 2017-09-18 Seminar paper from the year 2016 in the subject History of Europe Middle Ages Early Modern Age grade 2.0 University of Freiburg language English abstract The transatlantic slave trade from the early fifteenth to the second half of the nineteenth century played a major role for the development of the modern world. It enabled Europe's transition to capitalism, the nation state and imperialism and fostered the growth of western European nations and empires. Slave ships were the most important link between Europe, Africa and America and enabled the development of the Americas. All this as well as the creation of a higher standard of living for many Europeans and Americans happened at the expense of millions of enslaved people and was connected to inconceivable suffering. Talking about the transatlantic slave trade means talking about the biggest case of forced migration in recorded human history. Over the course of four centuries, slave ships continued to cross the Atlantic. It is estimated that between the years of 1500 and 1900 approximately 11.7 million Africans were forcefully deported into slavery, mainly from West Central and South Africa. A mere 9.8 to 10 million of these abducted prisoners reached their intended destinations alive. The other 1.7 million prisoners were not able to endure the torments of the transatlantic crossing, the middle passage, or died shortly after their arrival as a result of the deprivations they suffered whilst on the slave ships. Due to the immense importance of the middle passage for the slave trade between Africa and the Americas, this paper investigates the topic further. A transatlantic slave trade will serve as background for further analysis. The macrostructure of the slave trade will be examined using the example of the 18th century French slave ship *Diligent*. Concerning the microstructure, the historical records of Captain Theodore Canot and additional secondary literature will serve as the basis for an analysis of the conditions on slave ships at the time. In a final step, the life of Ramón Ferrer, captain of the slave ship *Amistad*, will be reconstructed with the aid of newly released documents and by using the chronicles of Canot as a guideline to speculate about gaps in Ferrer's biography.

Slavery at Sea Sowande M. Mustakeem, 2016-11-01 Most times left solely within the confine of plantation narratives, slavery was far from a land-based phenomenon. This book reveals for the first time how it took critical shape at sea. Expanding the gaze even more deeply, the book centers how the oceanic transport of human cargoes, famously known as the Middle Passage, comprised a violently regulated process foundational to the institution of bondage. Sowande Mustakeem's groundbreaking study goes inside the Atlantic slave trade to explore the social conditions and human costs embedded in the world of maritime slavery. Mining ship logs, records and personal documents, Mustakeem teases out the social histories produced between those on traveling ships: slaves, captains, sailors and surgeons. As she shows crewmen manufacturing captives through enforced dependency, relentless cycles of physical, psychological terror and pain that led to the making and unmaking of enslaved Africans held and transported onboard slave ships, Mustakeem relates how this process and related power struggles played out not just for adult men but also for women, children, teens, infants, nursing mothers, the elderly, diseased, ailing and dying. Mustakeem offers provocative new insights into how gender, health, age

illness and medical treatment intersected with trauma and violence transformed human beings into the world's most commercially sought commodity for over four centuries

Black Imagination and the Middle Passage Maria Diedrich, Henry Louis Gates, Carl Pedersen, 1999-10-21 This volume of essays examines the forced dispossession caused by the Middle Passage The book analyzes the texts religious rites economic exchanges dance and music it elicited both on the transatlantic journey and on the American continent The totality of this collection establishes a broad topographical and temporal context for the Passage that extends from the interior of Africa across the Atlantic and to the interior of the Americas and from the beginning of the Passage to the present day A collective narrative of itinerant cultural consciousness as represented in histories myths and arts these contributions conceptualize the meaning of the Middle Passage for African American and American history literature and life

The Middle Passage Tom Feelings, 1995 A powerful visual record concise narrative of the slave trade that describes life in Africa horrifying details of slave ships Bowker Authored Title code This is an important book about the slave trade Sixty four narrative paintings chronicle the journey of a slave ship a historical introduction traces four centuries of slave trade Map of the slave routes

The Middle Passage Herbert S. Klein, 1978-04-01 Herbert Klein's book makes several distinctive contributions to our understanding of the slave trade It offers us the first systematic comparative study of major European slave traders based exclusively on archival sources The author's minimization of the effect of overcrowded slave ships contributes to a longstanding debate regarding the mortality rate of the slaves His emphasis of the African influences on the character of the slave trade offsets the more frequent emphasis placed on the European influences Furthermore Klein maintains that basic similarities existed among the slave trading practices of all nations with no one nation being any better than another Using demographic and other quantitative data Professor Klein describes the trans Atlantic slave trade as it was practiced by all of the major European powers during the period of its maximum development His work spans a century and a half of European trading activity and an area from Senegal to Mozambique in Africa and from the Chesapeake to Guanabara Bay in the Western hemisphere Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
