Online Public Libraries:

The modernisation review of public libraries Great Britain: Department for Culture, Media and Sport, 2010-03-22 This paper puts forward policy proposals based on a consultation exercise launched in December 2009 by Margaret Hodge Minister for Culture. The proposals presented are grouped under 6 main aims gleaned from the exercise to drive the quality of all library services up to the level of the best to reverse the current trend of decline in library usage and grow the numbers using the library service that the library service is able to respond to limited public resources and public pressures to ensure that all libraries respond to a 24/7 culture that all libraries grasp the opportunities presented by digitisation and to demonstrate to citizens, commentators and politicians that libraries are still relevant and vital

Public Libraries and the Internet

John Carlo Bertot Ph.D., Charles R. McClure, Paul T. Jaeger, 2010-11-11 This book is a timely and detailed exploration of the impact and issues of the Internet in public libraries and their implications for society, policy and professional practice. **Public Libraries and the Internet: Roles, Perspectives, and Implications** explores the impact of the Internet and the expansion of the networked environment on U.S. public libraries through more than a dozen essays written by leading scholars and administrators. Notwithstanding the far-reaching changes wrought by the Internet, this is the first attempt to provide a comprehensive exploration of the subject over time and across areas of practice. This wide-ranging volume, edited by the authors of several national studies tracking the use and involvement of public libraries with the Internet since 1994, offers both description and assessment. It discusses the ways in which the roles and services of public libraries have changed as a result of the Internet and offers a perspective on the meaning and impact of these changes. Perhaps most critically, it also suggests possible futures and opportunities as public libraries continue to evolve in this networked environment.
