Emissions Trading Programs Thomas H. Tietenberg, Tom Tietenberg, 2001 A comprehensive collection of leading articles important in the development of the use of emissions trading to control air pollution from its earliest implementation in the USA in 1976 to its application to global warming in the Kyoto Protocol Each volume offers an introduction by the editor Tom Tietenberg presenting a history of the evolution of the field as well as a guide to the collected papers that follow Volume One contains the theoretical and empirical work that underpinned the development of this particular policy instrument as well as a discussion of some of the major design issues Volume Two focuses on implementation and presents examples of the major programs now in existence Designing Institutions for Environmental and Resource Management Edna Tusak Loehman, D. Marc Kilgour, 1998 This challenging book addresses environmental and resource management problems that continue to emerge despite increasing attempts at regulation It proposes a proactive approach to environmental and resource management through the design of institutions and organizations In addition it suggests that social rules for environmental management can be improved by taking into account the social costs of externalities and the administrative and transaction costs to reduce them The chapters in this book draw design ideas from four sources theory field studies simulation and experiment In the first section contributors discuss concepts for institutional design including incentives information fairness sustainability transaction costs and coordination Models for policy design in the second section apply welfare economics and game theory to international pollution regulation cost sharing for pollution reduction enforcement systems policy instruments and liability rules In the final section experimental methods for institutional design are applied to marketable pollution permits groundwater laws and markets with uncertainty Integrating economics with ideas from political science psychology and game theory *Designing Institutions for Environmental and Resource Management* will be of interest to all those endeavoring to improve environmental policy Computerworld , 1980-03-03 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network **The Millionaire Mind** Thomas J.
