Maker Literacy Lynn Pawloski,Cindy

Wall,2016-11-07 This book takes the creativity and inventiveness of the maker movement and applies that energy in a new

way to help children learn across all subject areas as well as broaden their world view Traditional library literacy programs

have helped many children foster a love of reading but to prepare this next generation of learners this programming needs to

be modified to include technology The inherent creativity and inventiveness of the Maker Movement embracing both classic

and innovative technological activities provides the perfect bridge to invigorate expand and update these programs This

alternative to conventional library literacy programming will help children learn throughout all subject areas see additional

possibilities and make connections in the world around them With this guide readers can discover how to apply maker

literacy to introduce connections that help children better understand that their experiences in life are interrelated that art

can be made on a 3D printer and that science and technology are an essential part of design This holistic approach provides a

myriad of creative opportunities for both teaching staff and the children they serve A great resource for youth services

librarians in public libraries this guide to infusing library programs with technology and maker activities to motivate learning

will also appeal to preschool and elementary librarians educators and parents
