RYB SYSTEM

RYB (Red-Yellow-Blue) is a historical set of colours used in subtractive colour mixing and is one commonly used set of primary colours. It relates specifically to colour in the form of paint and pigment application in art and design, interior design and traditional painting.

This set of primary colours emerged at a time when access to a large range of pigments was limited by availability and cost, and it encourages artists and designers to explore the many nuances of colour through mixing and intermixing a limited range of pigment colours.
