Ghost Road Anthony M. Townsend, 2020-06-16 A penetrating look at near future disruption as truly autonomous vehicles arrive For decades we have dreamed of building an automobile that can drive itself But as that dream of autonomy draws close we are discovering that the driverless car is a red herring When self-driving technology infects buses bikes delivery vans and even buildings a wilder future awaits Technology will transform life behind the wheel into a high-def video game that makes our ride safer smoother and more efficient Meanwhile autonomous vehicles will turbocharge our appetite for the instant delivery of goods making the future as much about moving things as it is about moving people Giant corporations will link the automated machines that move us to the cloud raising concerns about mobility monopolies and privatization of streets and sidewalks The pace of our daily lives and the fabric of our cities and towns will change dramatically as automated vehicles reprogram the way we work shop and play Ghost Road is both a

beacon and a warning it explains where we might be headed together in driverless vehicles and the choices we must make as societies and individuals to shape that future      **Postal Life** ,1971      *The American Film Institute Catalog of Motion Pictures* ,1931      *Life* ,1895      *Records and Briefs New York State Appellate Division* ,      **Publication Management** ,1943      The Postal Record ,1991      *Conductor and Brakeman* ,1958      The Conductor and Brakeman ,1957      **Engineering and Contract Record** ,1962      *Contract Record* ,1962      *American Lumberman* ,1935      Magazine of Light ,1931      *Bomb* ,1981      The New York Times Magazine ,2000-06      **How to Create Super Desktop Presentations** E.
