Trends in the Price of Farm Real Estate in Central Wellington County (Ontario) Since 1836 Edward C. Gray, Barry E. Prentice, Ontario Agricultural College. School of Agricultural Economics and Extension Education, 1982. Extract: This study presents a brief history and analysis of the trends in the farm real estate market of central Wellington County, Ontario, since early settlement days. It develops a series of annual market prices from 1853 on through the collection of sales data from land registry offices of farmland transferred at arm's length. To the extent that an annual price is the mean of 25 sales, on average, price is a reflection of acreage, tillable area, and improvement differences among farm properties sold in that year. It is thus a price representative of the locale, the organization, and the state of development of farming at the time and the willing buyer-willing seller condition.
