The file tab has all the information that is needed to make changes such as save open print options etc. The home tab is where the simple transactions take place such as new mail reply delete etc. Send Receive tab is all about sending and synching files and folders. Folder tab allows changes or formatting to folders. View addresses how you would like to customize the view of your Outlook experience. A chart would be beneficial to compare the old version to the new perhaps showing the ease of the transition. People that prefer the older versions would appreciate knowing where to find the function in the new format if a chart could point this out easily for them. The transition would be much easier.
