By reading these fourteen pages alone, one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom as he has drawn valuable and authenticated data from various enactments, official documents, court judgements, and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused, and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.
