It affects a wide range of people from teenagers and students to housewives and retired people with increasing numbers of people gambling online. Numbers can easily be doubled considering that for each compulsive gambler there is at least one concerned significant other. Numbers are rising annually particularly in the UK due to the softening of gambling advertising laws an increase in casinos and the popularity of internet gambling. In the USA many industry insiders predict a return to internet gambling stopped in 06 by banning deposits to internet casinos. The recession may also make some people more willing to take risks with their finances.
